**Procedure Note**

A time out was performed identifying the correct procedure, the correct location with the nursing staff. The right neck was prepped with 2% chlorhexidine and draped with a full length sterile sheet in the usual fashion. 1% lidocaine was administered subcutaneously for local anesthesia. The right internal jugular vein was accessed under ultrasound guidance with an 18 gauge thin wall needle. A triple lumen was inserted via the seldinger technique. Blood was withdrawn from all lumens and flushed with normal saline. The catheter was sutured in place and a sterile dressing was applied over the site prior to removal of drapes. The patient tolerated the procedure well and there were no complications. .

Thank you, I do need notifications for all send-outs, and regular updates (ER depends on what the problem is- if critical will need more frequent updates; for non-urgent issues can wait until returns from ER). If someone is hospitalized I will need daily updates. The preferred format for all notifications/updates is as follows:

Detainee (b)(6); (b)(7)(C) received his lunch tray yesterday and was observed taking a nutritional bar from the tray. He then handed the rest of the food to (b)(6); (b)(7)(C). He subsequently refused his dinner tray.

Thank you, please let me know if any of them have any current medical/mental health issues, and if they are on any medications. I will be requesting updates daily for this information once they reach the 72hr/9 meal mark.

For your assistance, below is what we do in IHSC sites, of course there are other guidance's such as your own policy/procedure and detention standards :

Medical providers must complete an initial medical and psychiatric evaluation of the detainee, and repeat as necessary.

**Medical Evaluation:** The CD or designee must perform an initial evaluation of the detainee to include:

Medical history; Physical examination to include height, weight, and orthostatic blood pressures;

Vital signs; Urinalysis; Clinically necessary laboratory tests deemed appropriate (e.g., complete metabolic panel, pre-albumin, complete blood count, etc.);

Weight and orthostatic vital sign measurement must be recorded at least once every 24 hours during the hunger strike, and other procedures as medically indicated; and standard treatment protocols should be modified or augmented when medically indicated, monitoring I&O. When clinically indicated, medical staff may refer the detainee to a hospital.

**Psychiatric Evaluation:** A behavioral health provider (BHP) must evaluate the detainee to assess for possible psychiatric causes for the hunger strike, and to provide supportive counseling that may help end the hunger strike.

**Detainee Education of Medical Risks:** The CD, designee, or other healthcare providers, along with a BHP, should counsel the detainee in a language and a manner that the detainee understands regarding medical risks of continuing the hunger strike and encourage the termination of the hunger strike. The healthcare providers must document this counseling in the detainee's health record.

Document any refusals of care.

### **Mental Health--Subjective**

Presenting or Current Problems: The inmate was referred to mental health after being cleared by nursing and the language line was called for Greek interpretation. The inmate explained that he has been receiving ongoing advice from his attorney for which he admits that the attorney has indicated for him to remain patient and not get into elaborate conversations regarding the status of his case. The inmate explains that has had detailed conversations about his case with his wife for which he reports it was his decision to not follow the advice set forth by his attorney. The inmate explains that his wife keeps pressuring him to make a choice for which he reported here that he does not want to give any specific details. The inmate reports that the wife's pressuring causes him distress for which he admitted here he is choosing not to tell the attorney of the pressure his wife places on him. The inmate states that the staff at the facility asks him too many questions when he is feeling distressed and that he never requested the services, intervention and/or involvement of the mental health department. The inmate reports that the staff here at the facility often does not understand him for which he revealed here that it could be due to a language barrier. The inmate reports that he does not set, boundaries, parameters and/or limits with his wife regarding the depth of their discussions regarding his legal case even though he claims that it has been causing him stress. The inmate reported that he receives the attention from the officers, nursing and mental health by his prior verbiage of going on hunger strike or tonight when he grabbed his chest after a phone conversation with his wife. He states that he gets angry with the staff making assumptions, but he reported here that he chooses not to reveal the entire problem(s) that he is experiencing but he offered no specific examples of the staff's assumptions.

Thank you for forwarding the information on the ICE Detainees who are on a hunger strike.

1. (b)(6); (b)(7)(C) refused to meet with me and even when I approached him directly he refused. He was polite and respectful, but refused emphatically.
2. (b)(6); (b)(7)(C) was very softspoken and appeared deflated. He denies any mental health hx. He denied any suicidal thoughts or intent. He said he will continue to refuse to eat unless released and given his freedom. He said it is unfair that he has been detained for almost three years and is without a criminal record. He said he traveled through 14 countries to get to the U.S. He declined any offer of mental health counseling or support.
3. (b)(6); (b)(7)(C) reports he has been in the U.S. for 25 years, committed no crime, has a wife, two children and a career in construction. No mental health hx, and denies any hx or current suicidality, but said he might accept a counseling follow up visit. He said most definitively that he will refuse to eat.

### **Mental Health--Subjective**

Presenting or Current Problems: The inmate was referred to mental health after being cleared by nursing and the language line was called for Greek interpretation. The inmate explained that he has been receiving ongoing advice from his attorney for which he admits that the attorney has indicated for him to remain patient and not get into elaborate conversations regarding the status of his case. The inmate explains that has had detailed conversations about his case with his wife for which he reports it was his decision to not follow the advice set forth by his attorney. The inmate explains that his wife keeps pressuring him to make a choice for which he reported here that he does not want to give any specific details. The inmate reports that the wife's pressuring causes him distress for which he admitted here he is choosing not to tell the attorney of the pressure his wife places on him. The inmate states that the staff at the facility asks him too many questions when he is feeling distressed and that he never requested the services, intervention and/or involvement of the mental health department. The inmate reports that the staff here at the facility often does not understand him for which he revealed here that it could be due to a language barrier. The inmate reports that he does not set, boundaries, parameters and/or limits with his wife regarding the depth of their discussions regarding his legal case even though he claims that it has been causing him stress. The inmate reported that he receives the attention from the officers, nursing and mental health by his prior verbiage of going on hunger strike or tonight when he grabbed his chest after a phone conversation with his wife. He states that he gets angry with the staff making assumptions, but he reported here that he chooses not to reveal the entire problem(s) that he is experiencing but he offered no specific examples of the staff's assumptions.

Good afternoon Ms (b)(6); (b)(7)(C)

Detainee (b)(6); (b)(7)(C) stated that he was going on a hunger strike. He was interviewed by Sgt (b)(6); (b)(7)(C) and Doctor (b)(6); (b)(7)(C). Detainee (b)(6); (b)(7)(C) then stated that he was not really on a hunger strike, he just wanted to be moved off of the unit because he was having problems with another detainee whom he identified as (b)(6); (b)(7)(C). Sgt (b)(6); (b)(7)(C) believed that detainee (b)(6); (b)(7)(C) was telling the truth so he had him reclassified to D500 East and put in a keep separate order for both detainees. Detainee (b)(6); (b)(7)(C) was given a food tray which he ate in the presence of Sgt (b)(6); (b)(7)(C).

On 11-15-2019 my presence was requested in Medical. Upon arrival I was greeted by Detainee (b)(6); (b)(7)(C) Dr. (b)(6); (b)(7)(C) and Ms. (b)(6); (b)(7)(C) Detainee (b)(6); (b)(7)(C) stated to us that he did not receive his Kosher Tray this morning and was refusing to eat. Detainee further stated that he did consume some snacks from his commissary last night. At this time it was Dr. (b)(6); (b)(7)(C) request to have Detainee placed in Medical to be observed. I then responded to the gym to search for Rabbi (b)(6); (b)(7)(C) with Negative Result's. After this I responded to the Kitchen and retrieved a sheet (attached to report) signed by Rabbi (b)(6); (b)(7)(C) advising that Detainee's (b)(6); (b)(7)(C) would no longer receive Kosher Trays (signed by Rabbi (b)(6); (b)(7)(C) on 11/14/2019). Upon returning to Medical to speak with Detainee (b)(6); (b)(7)(C) was advised that he was returned to Echo400North because his kosher tray was on post . I responded to the Kitchen and was advised by Corporal Wells that this tray was sent in error and Detainee (b)(6); (b)(7)(C) would no longer be receiving a kosher tray. At this time I went to Echo400 North and spoke to Detainee (b)(6); (b)(7)(C) and asked if he ate the kosher tray that was sent in error to which he replied he hadnt. I further advised him that he would not be receiving anymore kosher trays as per Rabbi (b)(6); (b)(7)(C) and if he was continuing to refuse to eat.

*I interviewed the detainee along with Sgt. (b)(6); (b)(7)(C) and Sgt. (b)(6); (b)(7)(C). The detainee admitted he was not Jewish, and wanted a kosher tray because the food is better and he has a sensitive stomach. I asked the detainee three different times if he was on a hunger strike. Each time he responded "NO", and assured me he will eat his dinner tray. I also notified Di Woodward, who will talk to the detainee about different diets available if his stomach bothers him in the future.*

Detainee (b)(6); (b)(7)(C) advised me that if he did not receive his Kosher Tray he would refuse to eat as he has a sensitive stomach and only Kosher food agrees with him. I had Detainee (b)(6); (b)(7)(C) put on his jail issued clothing and escorted him to Medical. Once in Medical I relayed all over the above information to Dr. (b)(6); (b)(7)(C). **NN. DETAINEE GRIEVANCE PROCEDURES**

Any Detainee residing at H.C.D.O.C & R has the opportunity to file a formal complaint which is considered a Grievance. The process will be explained below. It is important that the procedure listed be followed correctly in order to ensure adequate and appropriate resolutions. Grievances filed improperly will be returned without review.

**OO. GRIEVANCE PROCEDURE**

Stevens v ICE 2020- cv- 02735  
 Deportation research clinic  
<https://deportation-research.buffett.northwestern.edu/>

You have the right to pursue a grievance in accordance with the following procedures. When you have a complaint or grievance, every effort should be made to resolve it at the lowest level possible. You must present your grievance within five days. You should first attempt to resolve a grievance with the Housing Unit Officer. If an informal grievance is made orally to an officer or

other staff member, he/she will first attempt to resolve it at that level. If an oral grievance is resolvable at any of the levels, it may be answered orally and documented on the Hudson County Inmate Request form. A copy of the form will be placed in the detainee's detention file. If the attempt to resolve the grievance informally is unsuccessful, you can request a grievance form by asking the Unit Officer for one. In the event a written grievance cannot be resolved by the Supervisor, it will be forwarded to the appropriate department for review and resolution. If it is still not resolved at this level, the request can be forwarded to the ICE. It can also be forwarded to the Director of Corrections or designee within five business days.

The Director or Designee will have five business days to render a decision. If the Detainee does not accept the decision of the Director, he can appeal the decision to ICE/ERO AFOD by notifying the Ombudsman. The Ombudsman will forward the appeal to ICE/ERO AFOD. Place all grievances in the grievance box located near the entry door of the housing unit.

#### **(Emergency Grievances)**

If a Detainee experiences a situation that is an immediate threat to their health or safety, the Detainee should notify the Officer on duty. The Detainee should explain the severity of the situation to the Officer and request that a supervisor be notified. The Officer on duty will immediately notify the supervisor of the situation. When the supervisor responds the Detainee should present the Emergency Grievance to the supervisor. If the supervisor concurs that the grievance represents an emergency, it shall receive the immediate attention of the Facility Administrator or his designee. If it is determined that the grievance is not an emergency, standard grievance procedures shall apply.

#### **(Emergency Medical Grievances)**

If a Detainee experiences a situation that is an immediate threat to their health or safety the detainee should notify the Officer on Duty and request a Supervisor be notified. When the Supervisor arrives on Post the detainee should present the Emergency Medical Grievance to the Supervisor. The Supervisor will bring the emergency medical grievance directly to the Health Service Administrator, who will act as the Facility Directors designee.

The HSA will review medical grievances and respond within 24 hours. ***DO NOT*** use the grievance process for routine sick calls as this may delay medical care.

**NOTE: All appeals of formal medical grievances and responses shall be reported to ICE.**

You may not submit a grievance on behalf of another detainee. You may, however, seek assistance from another detainee or staff member in preparing your grievance. Detainees that are illiterate, disabled, or non-English speaking that require assistance in completing and filing a Grievance will be provided special assistance by notifying the Grievance Coordinator. Your need to obtain assistance will not allow for an extension of the time limit for submission.

No harassment, punishment, or disciplinary action will result to you if you are seeking resolution of legitimate complaints in good faith. However, if you demonstrate a pattern of abuse of the grievance system, resulting in unnecessary burdens at the expense of legitimate complaints, such grievances will be returned unprocessed. A copy of your detainee grievance will be maintained in your detention file for a period of three years.

Ms. (b)(6); (b)(7)(C)

ICE is required by the Freedom of Information Act (FOIA), 5 U.S.C. Section 552 to produce all logs of grievances (oral and written) submitted by individuals detained at the Hudson County during FY15 until present. ICE has requested this information recently for the GAO inquiry and will be forwarding the same information to FOIA. So, we will only need to obtain the grievance logs for FY 15 and FY16.

The timeframe for this request is December 03, 2019.

Thank you again for your continued support.

Kind Regards,
