SUPPLEMENTARY INFORMATION:

I. Background

On January 4, 2011, Public Law 111–350 enacted a new codified version of Title 41 United States Code (U.S.C.), entitled “Public Contracts.” The purpose of this proposed rule is to update all references to Title 41 in the FAR to conform to the positive law codification.

Furthermore, this rule proposes further updates to complete the implementation of the recodification of title 40 in the FAR (see final rule under FAR Case 2005–010, Title 40 of United States Code Reference Corrections, published in the **Federal Register** at 70 FR 57453 on September 30, 2005).

II. Discussion and Analysis

There are three types of changes throughout the FAR, including some standard forms:

A. Change to the citation (e.g., “41 U.S.C. 10a-10d” now reads “41 U.S.C. chapter 83”).

B. Change to the popular names of the Acts (e.g., the “Service Contract Act of 1965” is now the “Service Contract Labor Standards statute”). A table providing the popular names of the Acts, the present statutory citation, and the new titles of the statutes is proposed at FAR 1.110. This table covers Acts under both titles 40 and 41.

C. Changes to terminology which did not involve substantive changes to the meaning of the statutes. The changes are summarized in the following table:

	Statutory cite in 41 U.S.C.	Change from	To	FAR cites
1.	104	Definition of COTS item: “section 3 of the Shipping Act of 1984 (46 U.S.C. App. 1702)”.	“46 U.S.C. 40102(4)”	2.101, 22.1801, 52.209–6, 52.222–54, 52.225–1, 52.225–3, 52.225–9, 52.225–11.
2.	2105(c)(1)	“has engaged in conduct constituting a violation of”/“constitutes a violation of”.	“has violated”/“violates.”	3.703, 52.203–8.
3.	1705 and 4106(g)(2)	“competition advocate”	“advocate for competition”	6.000, 6.304(a), subpart 6.5 (multiple), 7.104(c), 8.405–3(e)(3), 8.405–6(d), 9.202(b), 13.501(a)(2)(ii), 16.505(b)(2)(ii)(C).
4.	3901	“in its discretion,”	Delete phrase	52.203–5.
5.	6308	“let”	“award”	3.303(c)(5), 19.800(a), 52.219–8.

9.	Chapter 85 (see 48 U.S.C. note prec. 1681).	Trust Territory of the Pacific	Delete	52.212–3, Alt I, 52.219–1, Alt I.
10.	8701 and 8702	“directly or indirectly”	Delete	3.502–1(a), 52.203–7(a).
11.	8703	“Department of Justice”	“Attorney General”	3.502–2(g), 52.203–7(c)(2).

Additionally, this case makes numerous minor corrections to the FAR apart from the changes directly due to the recodification:

- References to title 10 of the United States Code are corrected at FAR 6.302–5(c)(1), 7.102(a)(2), 7.103(a), 7.202(a), 15.303(b)(4) and (6), 15.404–1(f)(2), 32.006–1(a), and 32.006–5.

- Codification citations are added for Authorization Acts, for Appropriations Acts and other public laws at FAR 8.602(a), 9.402(d), 12.000, 12.102(g)(1), 12.504(a)(13), 16.505(a)(9), 19.201(d), 23.704(b)(1)(ii), 25.405, 25.700(b), 26.400, 28.106–4(b), 28.106–6(d), 31.205–1(f)(8), 32.112–1(a), 32.112–2(a), 52.212–5(a)(3) and (c)(7), (e)(1)(xiii), and in (e)(1)(ii)(M) of Alternate II; 52.213–4(a)(1)(vii), (b)(1)(x), 52.226–6(b), and 52.228–12.

- FAR 12.201 deletes the reference to Public Law 103–355, which is already covered at 12.000.

- The title of the clause at FAR 52.244–6 is corrected at FAR 12.502(b) and 44.402(b).

- FAR 1.501 is corrected to conform to 41 U.S.C. 1707 and FAR 1.301.

- FAR 22.1502—the relationship of three statutes is conformed to language used in Executive Order 13126.

- Obsolete references are deleted at FAR 43.102(c) and 50.103–3(c).

- The Executive order citation is added for FAR 52.222–54, Employment Eligibility Verification, at 52.212–5(e)(1)(xii) and Alternate II at (e)(1)(ii)(L).

III. Executive Order 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

The Department of Defense (DoD), the General Services Administration (GSA), and the National Aeronautics and Space Administration (NASA) do not expect this proposed rule to have a significant economic impact on a substantial

number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the rule does not change or add any policies or procedures. The rule merely updates references and terminology. Therefore, an Initial Regulatory Flexibility Analysis has not been performed. DoD, GSA, and NASA invite comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD, GSA, and NASA will also consider comments from small entities concerning the existing regulations in subparts affected by the rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (FAR Case 2011–018) in all correspondence.

V. Paperwork Reduction Act

The Paperwork Reduction Act (44 U.S.C. chapter 35) does apply; however, these changes to the FAR do not imposed additional information collection requirements to the paperwork burden previously approved under the Office of Management and Budget Control Number 1215–0017, titled: Records to be Kept by Employers-FLSA; 1215–0119, titled: Requirements of a Bono Fide Thrift or Savings Plan; 1215–0140, titled: Affected Public: Business or other for-profit; Federal Government; State, Local or Tribal Government; 1215–0149, titled: Optional Use Payroll Form under the Davis-Bacon Act; 1215–0150, titled: Nondisplacement of Qualified Workers Under Service Contracts; 9000–0014, titled: Statement and Acknowledgement; 9000–0024, titled: Buy American Act Certificate; 9000–0025, titled: Trade Agreement Certificate; 9000–0035, titled: Claims and Appeals; 9000–0045, titled: Bid Guarantees, Performance and Payment Bonds, and Alternative Payment Protections; 9000–0070, titled: Payments; 9000–0089, titled: Request for Authorization of Additional Classification and Rate, Standard Form 1444; 9000–0090, titled: Rights in Data and Copyrights; 9000–0091, titled: Anti-Kickback Procedures; 9000–0094, titled: Debarment and Suspension; 9000–0102, titled: Prompt Payment; 9000–0113, titled: Acquisition of Helium; 9000–0130, titled: Buy American Act-Free Trade Agreements-Israeli Trade Act Certificate; 9000–135, titled: Prospective Subcontractor Requests for Bonds; 9000–0136, titled: Commercial Item Acquisitions; 9000–0138, titled: Contract Financing; 9000–0141, titled: Buy American Act—Construction;

ARCHITECT-ENGINEER QUALIFICATIONS

OMB Number.: 9000-0157
Expiration Date: 11/30/2012

Public reporting burden for this collection of information is estimated to average a total of 29 hours per response (25 hours for Part 1 and 4 hours for Part 2), including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Regulatory Secretariat Division (MVCB), GSA, Washington, DC 20417.

PURPOSE

Federal agencies use this form to obtain information from architect-engineer (A-E) firms about their professional qualifications. Federal agencies select firms for A-E contracts on the basis of professional qualifications as required by (40 U.S.C. chapter 11, Selection of Architects and Engineers) and Part 36 of the Federal Acquisition Regulation (FAR).

The Selection of Architects and Engineers statute requires the public announcement of requirements for A-E services (with some exceptions provided by other statutes), and the selection of at least three of the most highly qualified firms based on demonstrated competence and professional qualifications according to specific criteria published in the announcement. The statute then requires the negotiation of a contract at a fair and reasonable price starting first with the most highly qualified firm.

The information used to evaluate firms is from this form and other sources, including performance evaluations, any additional data requested by the agency, and interviews with the most highly qualified firms and their references.

GENERAL INSTRUCTIONS

Part I presents the qualifications for a specific contract.

Part II presents the general qualifications of a firm or a specific branch office of a firm. Part II has two uses:

1. An A-E firm may submit Part II to the appropriate central, regional or local office of each Federal agency to be kept on file. A public announcement is not required for certain contracts, and agencies may use Part II as a basis for selecting at least three of the most highly qualified firms for discussions prior to requesting submission of Part I. Firms are encouraged to update Part II on file with agency offices, as appropriate, according to FAR Part 36. If a firm has branch offices, submit a separate Part II for each branch office seeking work.

2. Prepare a separate Part II for each firm that will be part of the team proposed for a specific contract and submitted with Part I. If a firm has branch offices, submit a separate Part II for each branch office that has a key role on the team.

INDIVIDUAL AGENCY INSTRUCTIONS

Individual agencies may supplement these instructions. For example, they may limit the number of projects or number of

pages submitted in Part I in response to a public announcement for a particular project. Carefully comply with any agency instructions when preparing and submitting this form. Be as concise as possible and provide only the information requested by the agency.

DEFINITIONS

Architect-Engineer Services: Defined in FAR 2.101.

Branch Office: A geographically distinct place of business or subsidiary office of a firm that has a key role on the team.

Discipline: Primary technical capabilities of key personnel, as evidenced by academic degree, professional registration, certification, and/or extensive experience.

Firm: Defined in FAR 36.102.

Key Personnel: Individuals who will have major contract responsibilities and/or provide unusual or unique expertise.

Re: FAR Case 2011-018
RIN 9000-AM30

Dear Ms. Flowers:

I am President of the Building and Construction Trades Department, AFL-CIO, (hereafter "BCTD"), which is a labor organization composed of thirteen national and international building and construction trades unions and 286 State and local building and construction trades councils, representing more than 2.5 million men and women employed or seeking employment in the building and construction industry in the United States and Canada. The Davis-Bacon Act applies to many construction projects where workers represented by the BCTD and its constituent organizations are employed or are seeking employment.

The following comments are submitted in response to the Notice of Proposed Rulemaking published by the Department of Defense ("DoD"), the General Services Administration ("GSA"), and the National Aeronautics and Space Administration ("NASA") concerning proposed amendment of the Federal Acquisition Regulation ("FAR") to conform references throughout the FAR to the new Positive Law Codification of Title 41.

DOD, GSA, and NASA initiated this rulemaking following the January 2011 enactment of Public Law 111-350, 124 Stat. 3677 (Jan. 4, 2011), a new positive law codification of Title 41 of the United States Code. The majority of the proposed rule addresses changes related to Title 41, and the BCTD has no significant objection to these changes. The regulation, however, goes beyond simply making changes to those portions of the FAR related to Title 41. DOD, GSA, and NASA also propose additional changes "to complete the implementation of the recodification of title 40 in the FAR." Federal Acquisition Regulation; Positive Law Codification of Title 41, 77 Fed. Reg. 57,950 (Sept. 18, 2012).

The BCTD opposes the proposed change to the references to the Davis-Bacon Act in the FAR. The proposed change – which would substitute the phrase "Wage Rate Requirements (Construction)" in place of references to the Davis-Bacon Act throughout the FAR – is not compelled by the Positive Law Codification to Title 40 or 41, it is not necessary because the

FAR previously was updated to reflect the 2002 codification of Title 40 of the United States Code, Public Law 107-217, 116 Stat. 1142 (Aug. 21, 2002), and it will result in confusion within the federal contracting community because many other federal agencies continue to refer to the prevailing wage rate requirements imposed by 40 U.S.C. §§ 3141-3144 and 3146-3147 as the "Davis-Bacon Act," which is a well-known term of art within the construction industry.

Congress has not mandated the Removal of References to the Davis-Bacon Act

Positive law codification is not intended to enact substantive changes in existing law. Instead, the purpose is to revise and restate the general laws of the United States as positive law that "conforms to the understood policy, intent, and purpose of the Congress in the original enactments." 2 U.S.C. § 285b(1). Public Law 107-217, which resulted in the positive law codification of Title 40, does not state that the well-known phrase "Davis-Bacon Act" is to be replaced by the more generic phrase "Wage Rate Requirements (Construction)" in federal regulations.¹ In fact, the proposed replacement phrase does not appear in the statutory text itself. The only reference that is close to this phrase appears in the heading to Subchapter IV, which states "Wage Rate Requirements." Accordingly, Congress has not mandated that references to the Davis-Bacon Act be removed from federal regulations.

The Rulemaking is Unnecessary with Respect to the Recodification of Title 40

Further implementation of the recodification of Title 40 in the FAR is not warranted. In 2005, the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council promulgated a final rule amending the FAR to reflect the 2002 positive law codification of Title 40. Federal Acquisition Regulation; Title 40 of United States Code Reference Corrections, 70 Fed. Reg. 57,453 (Sept. 30, 2005). The final rule amended the FAR to correct the statutory references to Title 40 in the FAR, and following the revisions, the FAR includes correct citations to the applicable provisions in Title 40. The 2005 rulemaking was, therefore, sufficient to conform the references in the FAR to the correct United States Code provisions in Title 40.

Elimination of References to the Davis-Bacon Act will Result in Confusion

The phrase "Davis-Bacon Act" is a term of art within the construction industry. Workers and contractors throughout the country are familiar with the term and understand the implications

¹ Nor is there any indication in the legislative history that Congress intended for federal agencies to remove references to the Davis-Bacon Act from their regulations. Indeed, the report of the House Committee on the Judiciary emphasizes that Congress intended Public Law 107-217 to "revise, codify, and enact *without substantive change* the general and permanent laws of the United States related to public buildings" H.R. Rep. No. 107-479, at 2 (2002) (emphasis added).

of application of the Davis-Bacon Act to a construction project. Replacing this well-known phrase with a generic phrase will likely result in confusion.

In addition, if this rule becomes final, the FAR will be the **only** federal regulation that does not refer to Title 40's prevailing wage requirements as the "Davis-Bacon Act,"² which also will cause confusion for federal contractors and their employees. Indeed, the Department of Labor's regulations issued pursuant to its responsibility to coordinate administration and consistency of enforcement of the labor standards provisions of more than 70 federal statutes that incorporate the Davis-Bacon prevailing wage requirement as well as the Davis-Bacon Act itself, consistently refers to Title 40's prevailing wage requirements applicable to federal construction projects as the "Davis-Bacon Act." DOL's publications, notices, bulletins, and fact sheets also refers to this prevailing wage statute as the "Davis-Bacon Act." If the proposed rule becomes final, a contractor or worker attempting to understand both the FAR and Department of Labor regulations will, therefore, be faced with two different phrases that describe the same underlying prevailing wage rate requirements, adding an unnecessary level of complexity to the task of insuring compliance with the Davis-Bacon Act.

Accordingly, on behalf of the Building and Construction Trades Department, AFL-CIO, it is respectfully requested that the FAR Council reconsider its tentative decision to eliminate all references to the "Davis-Bacon Act" in the FAR.

General Comment

Some of these changes indicate the Agencies no longer are interested in honesty in fact, but only compliance with the law.

For example, changing the name of the "Procurement Integrity Act" to "Restrictions on Obtaining and Disclosing Certain Information" seems to take personal integrity as a government contractor or employee out of the picture and replace it with compliance with applicable rules. In effect, the new term shifts the focus from integrity in fact, a personal trait to compliance with the law a compelled action. Federal Procurement is a profession, the hallmark of the profession is integrity in fact, taking the focus off integrity has the potential to cause significant damage to the procurement system. If any change is made in this name, it should be the simple removal of the word "Act" as with many other changes. This will leave integrity as a core value of our system.

Another change that demonstrates the shift in focus from personal responsibility is the change in the name of the "Truth in Negotiation Act" to "Truthful Cost or Pricing Data." While the law requires "truthful" data, the primary purpose of the law, and its title, is to ensure honest negotiations. To me this change indicates that the government does not care about dishonest or

misleading conduct in negotiations so long as the underlying data is truthful. This opens the door to a host of problems. Simply taking the word "act" out of the name is sufficient.

Many of the other changes such as changing "competition advocate" to advocate for competition" and "Department of Justice" to "Attorney General" just don't seem to be worth the cost of tracking down and changing minor terms in dozens of regulations and policies which all have to be reprinted

This rule sends the wrong message to the public and the contractor community, i.e. the Government is more interested in minor technicalities than the many serious issues involved in maintaining an honest and open procurement system.

SUPPLEMENTARY INFORMATION:

Summaries for each FAR rule follow.

amendments made by these rules, refer

subjects set forth in the documents
following these item summaries. FAC
2005–73 amends the FAR as specified
below:

**Item I—Positive Law Codification of
Title 41 (FAR Case 2011–018)**

This final rule amends the Federal
Acquisition Regulation (FAR) to
conform references throughout the FAR
to the new Positive Law Codification of
Title 41, United States Code, “Public
Contracts” and other conforming
changes. The new codification of Title
41 was enacted on January 4, 2011,
under Public Law 111–350.

Additionally, the rule completes the
implementation of the recodification of
Title 40. The codifications reorganized
and renumbered the statutes, but did
not change the meaning or legal effect.

A table at FAR 1.110 provides the
popular names of Acts, the present
statutory citation, and the new titles of
the statutes. For example the “Service
Contract Act of 1965” is now the
“Service Contract Labor Standards
statute”.

The rule does not have a significant
effect beyond the internal operating
procedures of the Government, and
consequently does not have a significant
cost or administrative impact on entities
either large or small.

SUPPLEMENTARY INFORMATION:

I. Background

DoD, GSA, and NASA published a proposed rule in the **Federal Register** at 77 FR 57950 on September 18, 2012, to implement the positive law codification of Title 41, United States Code, “Public Contracts” (Pub. L. 111–350). Changes to standard forms were published in a correction document in the **Federal Register** at 77 FR 60343 on October 3, 2012.

Furthermore, the rule proposed further updates to complete the implementation of the recodification of title 40 in the FAR (see final rule under FAR Case 2005–010, Title 40 of United States Code Reference Corrections, published in the **Federal Register** at 70 FR 57453 on September 30, 2005).

The proposed rule included the following:

1. Changes to citations (e.g., “41 U.S.C. 10a–10d” now reads “41 U.S.C. chapter 83”).
2. Changes to the popular names of the Acts (e.g., the “Service Contract Act of 1965” is now the “Service Contract Labor Standards statute”). A table providing the popular names of the Acts, the present statutory citation, and the new titles of the statutes appears at FAR 1.110. This table covers Acts under both Titles 40 and 41.
3. Changes to terminology which did not involve substantive changes to the meaning of the statutes.
4. Numerous minor corrections to the FAR apart from the changes directly due to the recodification, such as corrections to references to Title 10 of the United States Code; addition of codification citations are added for authorization acts, appropriations acts, and other public laws.

Two respondents submitted comments on the proposed rule.

II. Discussion and Analysis

The Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (the Councils) reviewed the comments in the development of the final rule. A discussion of the comments and the changes made to the rule as a result of those comments are provided as follows:

A. Summary of Significant Changes

There are no changes in the final rule from those proposed, other than minor edits.

B. Analysis of Public Comments

1. Changes to the Popular Names of the Acts

a. Davis-Bacon Act

Comment: One respondent was particularly concerned about removal of references to the Davis-Bacon Act. The respondent stated that there was no mandate to remove references to the Davis-Bacon Act from the FAR. The 2005 rulemaking, which amended the FAR to correct the statutory references to Title 40, was sufficient. The respondent also stated that the new phrase “Wage Rate Requirements (Construction)” does not appear in the statutory text itself, although the subchapter heading is “Wage Rate Requirements.”

Furthermore, the respondent was concerned that the Department of Labor has not made similar changes in the Department of Labor regulations, which will result in confusion.

Response: The codifications of Title 40 and Title 41 have removed all references to the popular names of the statutes codified therein. There are also conforming changes to other titles of the United States Code, to likewise remove the use of the popular names throughout the United States Code. When the Councils decided that the change was necessary for conformity to the United States Code, the 2005 case was reviewed and conforming changes to the statutory titles in Title 40 were included in this case. Future changes to these sections of the United States Code will no longer be in terms of the old statutes, but in terms of the new codification. Therefore, the old popular names will gradually have little meaning to the newer workforce. As an aid to recognition of new statutory citations, the headings have been used to identify the statutes. In the case of “Wage Rate Requirements,” it appeared too generic, possibly leading to confusion with the wage rate requirements under the Service Contract Labor Standards statute. Therefore, when citing the title for 40 U.S.C. chapter 31, Subchapter IV, “(Construction)” has been added in parentheses, and when citing the statute, the regulations refer to it as the Construction Wage Rate Requirements statute.

The Department of Labor has confirmed that it is in the process of updating its regulations to conform to the codification of Titles 40 and 41.

b. Procurement Integrity Act and Truth in Negotiations Act

Comment: One respondent comments that changing the name of the

“Procurement Integrity Act” to “Restrictions on Obtaining and Disclosing Certain Information” seems to take personal integrity as a government contractor or employee out of the picture and replace it with compliance with applicable rules. The respondent also expressed concern that the change in the title of the “Truth in Negotiations Act” to “Truthful Cost or Pricing Data” indicates that the Government does not care about dishonest or misleading conduct in negotiations as long as the underlying data is truthful.

Response: The codification did not change the substance of the statutes, just the titles. The FAR did not create these titles but is reflecting the new statutory chapter titles in Title 41, as enacted into law.

2. Terminology Changes

Comment: One respondent stated that some of the changes in the proposed rule indicate that the agencies no longer are interested in honesty in fact, but only in compliance with the law. According to the respondent, the Government is more interested in minor technicalities than the many serious issues necessary to maintain an honest and open procurement system.

Response: The Defense Acquisition Regulations Council and the Civilian Agencies Acquisition Council (the Councils) continue to demonstrate an ongoing interest in the serious issues relating to honesty and openness in procurement, and important issues such as personal and organizational conflicts of interest, fairness and integrity in competition, and collection of data in the Federal Awardee Procurement Integrity Information System. However, the acquisition regulations must also stay current with all statutory changes, Executive orders, the regulations of other agencies (e.g., the Department of Labor and the Small Business Administration), finance and pricing issues, international agreements, and systems changes, as well as making any necessary technical corrections to ensure the accuracy of the regulations.

The positive law codification of Title 41 did not involve any substantive changes to the meaning of the statutes. Nevertheless, the Councils undertook the effort to make all necessary changes to the FAR to make it consistent with Title 41, including terminology changes. Making a small change to maintain consistency with a statute does not indicate a lack of concern for the substantive issues.

C. Other Changes

There are no other substantive changes in the final rule from those proposed.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. The Office of Information and Regulatory Affairs (OIRA) has determined that this rule is not a significant regulatory action under section 6(a)(3)(A) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. Therefore, this rule was not subject to OIRA review under section 6(b) of E.O. 12866. OIRA has determined that this rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

The Department of Defense, the General Services Administration, and the National Aeronautics and Space Administration certify that this final rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the rule does not change or add any policies or procedures. The rule merely updates references and terminology.

V. Paperwork Reduction Act

The Paperwork Reduction Act (44 U.S.C. chapter 35) does apply; however these changes to the FAR do not imposed additional information collection requirements to the paperwork burden previously approved under the Office of Management and Budget (OMB) Control Numbers 9000–0014, titled: Statement and Acknowledgment (SF 1413); 9000–0024, titled: Buy American Act Certificate; 9000–0025, titled: Buy American Act, Trade Agreements Act Certificate; 9000–

If the agency decision declares void and rescinds the contract, the final decision shall specify the amounts due and property to be returned to the agency, and reflect consideration of the fair value of any tangible benefits received and retained by the agency. Notice of the decision shall be sent promptly by certified mail, return receipt requested. Rescission of contracts under the authority of the Act and demand for recovery of the amounts expended and property transferred therefor, is not a claim within the meaning of 41 U.S.C. chapter 71, Contract Disputes, or part 33. Therefore, the procedures required by the statute and the FAR for the issuance of a final contracting officer decision are not applicable to final agency decisions under this subpart, and shall not be followed.

PURPOSE

Federal agencies use this form to obtain information from architect-engineer (A-E) firms about their professional qualifications. Federal agencies select firms for A-E contracts on the basis of professional qualifications as required by 40 U.S.C. chapter 11, Selection of Architects Engineers, and Part 36 of the Federal Acquisition Regulation (FAR).

The Selection of Architects and Engineers statute requires the public announcement of requirements for A-E services (with some exceptions provided by other statutes), and the selection of at least three of the most highly qualified firms based on demonstrated competence and professional qualifications according to specific criteria published in the announcement. The Act then requires the negotiation of a contract at a fair and reasonable price starting first with the most highly qualified firm.

The information used to evaluate firms is from this form and other sources, including performance evaluations, any additional data requested by the agency, and interviews with the most highly qualified firms and their references.

GENERAL INSTRUCTIONS

Part I presents the qualifications for a specific contract.

Part II presents the general qualifications of a firm or a specific branch office of a firm. Part II has two uses:

1. An A-E firm may submit Part II to the appropriate central, regional or local office of each Federal agency to be kept on file. A public announcement is not required for certain contracts, and agencies may use Part II as a basis for selecting at least three of the most highly qualified firms for discussions prior to requesting submission of Part I. Firms are encouraged to update Part II on file with agency offices, as appropriate, according to FAR Part 36. If a firm has branch offices, submit a separate Part II for each branch office seeking work.

2. Prepare a separate Part II for each firm that will be part of the team proposed for a specific contract and submitted with Part I. If a firm has branch offices, submit a separate Part II for each branch office that has a key role on the team.

INDIVIDUAL AGENCY INSTRUCTIONS

Individual agencies may supplement these instructions. For example, they may limit the number of projects or number of

pages submitted in Part I in response to a public announcement for a particular project. Carefully comply with any agency instructions when preparing and submitting this form. Be as concise as possible and provide only the information requested by the agency.

1. Solicitation Number. If Part II is submitted for a specific contract, insert the agency's solicitation number and/or project number, if applicable, exactly as shown in the public announcement or agency request.

2a-2e. Firm (or Branch Office) Name and Address. Self-explanatory.

3. Year Established. Enter the year the firm (or branch office, if appropriate) was established under the current name.

4. DUNS Number. Insert the Data Universal Numbering System number issued by Dun and Bradstreet Information Services. Firms must have a DUNS number. See FAR Part 4.6.

5. Ownership.

a. Type. Enter the type of ownership or legal structure of the firm (sole proprietor, partnership, corporation, joint venture, etc.)

b. Small Business Status. Refer to the North American Industry Classification System (NAICS) code in the public announcement, and indicate if the firm is a small business according to the current size standard for that NAICS code (for example, Engineering Services (part of NAICS 541330), Architectural Services (NAICS 541310), Surveying and Mapping Services (NAICS 541370)). Contact your local U.S. Small Business Administration office for any questions regarding Business Status.

6a-6c. Point of Contact. Provide this information for a representative of the firm that the agency can contact for additional information. The representative must be empowered to speak on contractual and policy matters.

7. Name of Firm. Enter the name of the firm if Part II is prepared for a branch office.

8a-8c. Former Firm Names. Indicate any other previous names for the firm (or branch office) during the last six years. Insert the year that this corporate name change was

effective and the associated DUNS Number. This information is used to review past performance on Federal contracts.

9. Employees by Discipline. Use the relevant disciplines and associated function codes shown at the end of these instructions and list in the same numerical order. After the listed disciplines, write in any additional disciplines and leave the function code blank. List no more than 20 disciplines. Group remaining employees under "Other Employees" in column b. Each person can be counted only once according to his/her primary function. If Part II is prepared for a firm (including all branch offices) enter the number of employees by disciplines in column c(1). For each type of experience, enter the appropriate revenue index number to reflect the professional services revenues received annually (averaged over the last 5 years) by the firm or branch office for performing that type of work. A particular project may be identified with one experience category or it may be broken into components, as best reflects the capabilities and types of work performed by the firm. However, do not double count the revenues received on a particular project.

11. Annual Average Professional Services Revenues of Firm for Last 3 Years. Complete this block for the firm or branch office for which this Part II is prepared. Enter the appropriate revenue index numbers to reflect the professional services revenues received annually (averaged over the last 3 years) by the firm or branch office. Indicate Federal work (performed directly for the Federal Government, either as the prime contractor or subcontractor), non-Federal work (all other domestic and foreign work, including Federally-assisted projects), and the total. If the firm has been in existence for less than 3 years, see the definition for "Annual Receipts" under FAR 19.101.

12. Authorized Representative. An authorized representative of the firm or branch office must sign and date the completed form. Signing attests that the information provided is current and factual. Provide the name and title of the authorized representative who signed the form.
