I. CONTRACT OBJECTIVES

The objective of this contract is to obtain services for all oversight, management, supervision, and vehicles necessary to provide detention, transportation and food services for the El Centro Service Processing Center (SPC), located at 1115 N. Imperial Avenue, El Centro, CA 92243. The El Centro SPC is a Government Owned and Contractor Operated Facility (GOCO).

A.1 U. S. IMMIGRATION AND CUSTOMS ENFORCEMENT GOALS

The United States Department of Homeland Security (DHS), U.S. Immigration and Customs Enforcement (ICE) is responsible for the detention, food, health, welfare, transportation and deportation of illegal aliens in removal proceedings, and aliens subject to final order of removal from the United States. ICE houses detainees in Service Processing Centers (SPC) and other federal, state, local and private facilities.

A.2 PURPOSE

A. 2.1 ICE DRO Mission

The mission of the Detention and Removal Operations Program (DRO) is planning, management, and direction of broad programs relating to the supervision, detention and deportation of detainees who are in the United States illegally. These activities are chiefly concerned with the processing and enforcement of departure from the United States of detainees who have entered the country illegally or have become removable after admission.

In implementing its mission, DRO is responsible for carrying out all orders for the securing and departure activities of detainees who are designated in removal proceedings and for arranging for the detention of detainees when such becomes necessary and prescribed by law.

DRO currently maintains and operates various databases used to process cases located by the U.S. Customs and Border Protection, Investigations, Inspections and other law enforcement agencies. The DRO activities are directly reliant upon these activities. Investigative and Border activities locate aliens who are denied entry or further stay in the United States and whose departure must be enforced.

A.3 CONTRACT OBJECTIVES – TOP LEVEL

A.3.1 A fully controlled, secure, safe and supervised facility and its detainees will be achieved, with no detainee escapes and no unauthorized entries.

A.3.2 The staffing of fully trained, knowledgeable and responsive detention officers (armed and unarmed) and support personnel, including managers, who have proper security clearances and efficiently carry out the law enforcement and administrative duties required by the contract, laws and regulations.

A.3.3 The timely acquiring and/or accomplishing of training, certifications, licenses, drug testing, uniforms, equipment, supplies and vehicles necessary to provide the full range of required detention and transportation services seven (7) days a week, twenty-four (24) hours per day throughout the contract period of performance.

A.4 SPECIFIC OBJECTIVES

A.4.1 Facility Security and Control

The facility is fully guarded and controlled. Access and egress points are fully secured to ensure that no escapes and unauthorized entries occur. Records and reports are maintained and submitted in a timely and accurate manner. Detainee inspections, counts, handling and supervision are carried out in a timely, courteous and, if applicable, force-appropriate manner. Contraband will be secured, controlled, inventoried and timely reported to the COTR or designated ICE official, as prescribed under the applicable contract.

A.4.2 Health, Safety and Emergency

The facility shall be fully compliant with all applicable health and safety codes and standards. Detainee supervision shall be effective so as to minimize and quickly stop disturbances. Medical services and responses to injuries and illness shall be prompt and provide the proper medical care and attention.

A.4.3 Property, Equipment, Supplies and Information

Government-owned property, equipment, supplies and information shall be safeguarded, timely inventoried, and

controlled in accordance with applicable procedures. Firearm usage and storage at facilities shall be in accordance with ICE and state standards and licensing requirements. All valuables, whether Government-owned, contractor-owned, detainee-owned, or contraband, will be properly controlled, secured, managed and released or disposed.

A.4.4 Contractor Employee Training

The Contractor's employees satisfactorily complete all required trainings on schedule and properly perform their duties during the course of the contract period of performance. The employees' performance, reports, response to situations, and other duties are in accordance with the standards, procedures, and training that apply to the circumstances at hand.

A.5 PERFORMANCE MEASURES

The following measures are applicable to all Detention and Transportation contracts for detention services at ICE SPCs. Contract may include additional objectives and measures that are relevant and specific to the site for which services are being acquired.

A.5.1 All guard posts must be fully staffed, and patrols and inspections are accomplished in accordance with the contract and applicable standards. No escapes or unauthorized entries shall occur. Records and reports are maintained in an accurate manner and to be submitted on time. Detainee inspections, counts, handling and supervisions are carried out in a timely, courteous and, if applicable, force-appropriate manner.

The contractor's preventive actions, searches and detection processes shall ensure that all contraband is timely seized, controlled and reported to ICE officials. No loss or misplacement of contraband or other controlled items occur.

A.5.2 No health and safety code violations shall occur within the contract period of performance. Emergency safety plans must be complete, effective and in place. Detainee supervision minimizes and stops disturbances within 1 to 3 minutes following occurrences. Responses to injuries and illness are provided and administered immediately in the cases of emergencies, and within one hour in cases of non-emergency situations.

A.5.3 Government-owned property, equipment, supplies and information are safeguarded, inventoried, and controlled, in accordance with applicable contract requirements and procedures. No loss of property by negligence or theft shall occur. Inventory reports of controlled property are submitted on time, and detainee property is accurately logged, secured and returned.

No accidents or violations of firearm usage occur and weapon storage at facilities shall be in accordance with ICE and state standards and licensing requirements. Firearm safety is exercised and no unauthorized use of firearms occurs.

A.5.4 The Contractor's employees satisfactorily complete all required trainings on schedule and properly perform their duties during the course of the contract period of performance. The employees' performance, reports, response to situations, and other duties are in accordance with the standards, procedures, and training that apply to the circumstances at hand. No more than 10% of the contractor's employees require remedial or repeat training per year due to poor or substandard performance.

A.6 PARTNERING PHILOSOPHY

A major intent of this acquisition is to create a "partnership" between ICE and the Contractor. ICE has structured the contract in a manner that ensures the Contractor's goals and objectives are in alignment with those of ICE. Superior performance on the Contractor's part will have both an indirect and direct effect on the accomplishment of ICE's mission. Within the context of the ICE/Contractor partnership, ICE does not use the terms "partner" and "partnership" as legal terms. When the defects in services cannot be corrected by re-performance, the Government may -
 - (1) Require the Contractor to take necessary action to ensure that future performance conforms to contract requirements; and
 - (2) Reduce the contract price to reflect the reduced value of the services performed.
- (f) If the Contractor fails to promptly perform the services again or to take the necessary action to ensure future performance in conformity with contract requirements, the Government may -

H-3 – BACKGROUND AND SECURITY CLEARANCE PROCEDURES

A. BACKGROUND INVESTIGATIONS REQUIRED

The Contractor shall process all background investigations through the ICE Security Office via the COTR prior to contract start date. ICE shall have complete control over granting, denying, suspending, and terminating employment suitability checks for Contractor employees and prospective employees. If the COTR receives a report indicating the unsuitability of any employee or prospective employees, the COTR shall inform the Contractor that the Government will not allow the individual on site. See Section J-Attachment 9 for the E-Qip instructions and forms.

B. SECURITY REQUIREMENTS

General

The Department of Homeland Security (DHS) has determined that performance of the tasks as described in this contract requires that the Contractor, subcontractor(s), vendor(s), etc. (herein known as Contractor) have access to sensitive DHS information, and that the Contractor will adhere to the following.

Suitability Determination

DHS shall have and exercise full control over granting, denying, withholding or terminating unescorted Government facility and/or sensitive Government information access for Contractor employees, based upon the results of a background investigation. DHS may, as it deems appropriate, authorize and make a favorable entry on duty (EOD) decision based on preliminary security checks. The favorable EOD decision would allow the employees to commence work temporarily prior to the completion of the full investigation. The granting of a favorable EOD decision shall not be considered as assurance that a full employment suitability authorization will follow as a result thereof. The granting of a favorable EOD decision or a full employment suitability determination shall in no way prevent, preclude, or bar the withdrawal or termination of any such access by DHS, at any time during the term of the contract. No employee of the Contractor shall be allowed to EOD and/or access sensitive information or systems without a favorable EOD decision or suitability determination by the Office of Professional Responsibility, Personnel Security Unit (OPR-PSU). No employee of the Contractor shall be allowed unescorted access to a Government facility without a favorable EOD decision or suitability determination by the OPR-PSU. Contractor employees assigned to the contract not needing access to sensitive DHS information or recurring access to DHS' facilities will not be subject to security suitability screening.

Background Investigations

Contractor employees (to include applicants, temporaries, part-time and replacement employees) under the contract, needing access to sensitive information, shall undergo a position sensitivity analysis based on the duties each individual will perform on the contract. The results of the position sensitivity analysis shall identify the appropriate background investigation to be conducted. Background investigations will be processed through the Personnel Security Unit. Prospective Contractor employees with adequate security clearances issued by the Defense Industrial Security Clearance Office (DISCO) may not be required to submit complete security packages, as the clearance issued

by DISCO may be accepted. Prospective Contractor employees without adequate security clearances issued by DISCO shall submit the following completed forms to the Personnel Security Unit through the COTR, no less than 5 days before the starting date of the contract or 5 days prior to the expected entry on duty of any employees, whether a replacement, addition, subcontractor employee, or vendor:

1. Standard Form 85P, "Questionnaire for Public Trust Positions"
Form will be submitted via e-QIP (electronic Questionnaires for Investigation Processing) **(2 copies)**
2. FD Form 258, "Fingerprint Card" **(2 copies)**
3. Foreign National Relatives or Associates Statement
4. DHS 11000-9, "Disclosure and Authorization Pertaining to Consumer Reports Pursuant to the Fair Credit Reporting Act"
5. Optional Form 306, "Declaration for Federal Employment" (applies to contractors as well)
6. Authorization for Release of Medical Information

Required forms will be provided by DHS at the time of award of the contract. Only complete packages will be accepted by the OPR-PSU. Specific instructions on submission of packages will be provided upon award of the contract.

Be advised that unless an applicant requiring access to sensitive information has resided in the US for three of the past five years, the Government may not be able to complete a satisfactory background investigation. In such cases, DHS retains the right to deem an applicant as ineligible due to insufficient background information.

The use of Non-U.S. citizens, including Lawful Permanent Residents (LPRs), is not permitted in the performance of this contract for any position that involves access to, development of, or maintenance of any DHS IT system.

Continued Eligibility

If a prospective employee is found to be ineligible for access to Government facilities or information, the COTR will advise the Contractor that the employee shall not continue to work or to be assigned to work under the contract.

The OPR-PSU may require drug screening for probable cause at any time and/or when the contractor independently identifies circumstances where probable cause exists.

The OPR-PSU may require reinvestigations when derogatory information is received and/or every 5 years.

DHS reserves the right and prerogative to deny and/or restrict the facility and information access of any Contractor employee whose actions are in conflict with the standards of conduct, 5 CFR 2635 and 5 CFR 3801, or whom DHS determines to present a risk of compromising sensitive Government information to which he or she would have access under this contract.

The Contractor will report any adverse information coming to their attention concerning contractor employees under the contract to the OPR-PSU through the COTR. Reports based on rumor or innuendo should not be made. The subsequent termination of employment of an employee does not obviate the requirement to submit this report. The report shall include the employees' name and social security number, along with the adverse information being reported.

The OPR-PSU must be notified of all terminations/resignations within five days of occurrence. The Contractor will return any expired DHS issued identification cards and building passes, or those of terminated employees to the COTR. If an identification card or building pass is not available to be returned, a report must be submitted to the COTR, referencing the pass or card number, name of individual to whom issued, the last known location and disposition of the pass or card. The COTR will return the identification cards and building passes to the responsible ID Unit.

Employment Eligibility

The Contractor must agree that each employee working on this contract will have a Social Security Card issued and approved by the Social Security Administration. The Contractor shall be responsible to the Government for acts and omissions of his own employees and for any Subcontractor(s) and their employees.

Subject to existing law, regulations and/or other provisions of this contract, illegal or undocumented aliens will not be employed by the Contractor to work on or under this contract. The Contractor will ensure that this provision is expressly incorporated into any and all Subcontracts or subordinate agreements issued in support of this contract.

Security Management

The Contractor shall appoint a senior official to act as the Corporate Security Officer. The individual will interface with the OPR-PSU through the COTR on all security matters, to include physical, personnel, and protection of all Government information and data accessed by the Contractor.

The COTR and the OPR-PSU have the right to inspect the procedures, methods, and facilities utilized by the Contractor in complying with the security requirements under this contract. Should the COTR determine that the Contractor is not complying with the security requirements of this contract; the Contractor will be informed in writing by the Contracting Officer of the proper action to be taken in order to effect compliance with such requirements.

The following computer security requirements apply to both Department of Homeland Security (DHS) operations and to the former Immigration and Naturalization Service operations. These entities are hereafter referred to as the Department.

Information Technology Security Clearance

When sensitive Government information is processed on Department telecommunications and automated information systems, the Contractor agrees to provide for the administrative control of sensitive data being processed and to adhere to the procedures governing such data as outlined in DHS IT Security Program Publication DHS MD 4300 Pub. Contractor personnel must have favorably adjudicated background investigations commensurate with the defined sensitivity level.

Contractors who fail to comply with Department security policy are subject to having their access to Department IT systems and facilities terminated, whether or not the failure results in criminal prosecution. Any person who improperly discloses sensitive information is subject to criminal and civil penalties and sanctions under a variety of laws (e.g., Privacy Act).

Information Technology Security Training And Oversight

All contractor employees using Department automated systems or processing Department sensitive data will be required to receive Security Awareness Training. This training will be provided by the appropriate component agency of DHS.

Contractors involved with management, use, or operation of any IT systems that handle sensitive information within or under the supervision of the Department, shall receive periodic training at least annually in security awareness and accepted security practices and systems rules of behavior. Department contractors, with significant security responsibilities, shall receive specialized training specific to their security responsibilities annually. The level of training shall be commensurate with the individual's duties and responsibilities and is intended to promote a consistent understanding of the principles and concepts of telecommunications and IT systems security.

All personnel who access Department information systems will be continually evaluated while performing these duties. Supervisors should be aware of any unusual or inappropriate behavior by personnel accessing systems. Any unauthorized access, sharing of passwords, or other questionable security procedures should be reported to the local Security Office or Information System Security Officer (ISSO).

C. INITIAL DRUG TESTING

The Contractor must obtain screening for the use of illicit drugs of every employee and prospective employee working under this contract. Drug screening is urinalysis to detect the use of amphetamines, cocaine metabolites, opiates (morphine/codeine), phencyclidine (PCP), and marijuana metabolites by an individual. ICE may expand the above list to include additional drugs. A lab approved by the National Institute of Drug Abuse (NIDA) must perform the screening.

Prior to the granting of a favorable EOD decision, the Contractor must submit the results of the drug screening on the applicant to the COTR. Drug testing of an applicant will commence as soon as scheduled upon receipt of an applicant's personnel suitability packet by the COTR. The results of an applicant's drug test must be submitted to the COTR no later than 21 calendar days after receipt of an applicant's personnel suitability packet. Contractor shall ensure that all federal, state, and local legal procedures are followed whether or not included in these procedures, with regard to the specimen. Contractor must ensure that the confirmations are correct and that an adequate chain of custody procedure exists and is followed. The Contractor must post the ICE "Drug Free Workplace Policy" in all contract work areas.

H-4 - PRICING OF MODIFICATIONS

The Contractor, in connection with any proposal he makes for a contract modification, shall furnish a price breakdown, itemized as required by the Contracting Officer. Unless otherwise directed, the breakdown shall be in sufficient detail to permit an analysis of all material, labor, equipment, subcontract, and overhead costs, as well as profit, and shall cover all work involved in the modification, whether such work was deleted, added, or changed. Any amount claimed for subcontracts shall be supported by a similar price breakdown. Base line values and percentages used to prepare the proposal shall be as agreed upon by the Contractor and Contracting Officer. In addition, if the proposal includes a time extension, justifications therefore, will also be furnished. The proposal, with all supporting documentation, shall be furnished by the date specified by the Contracting Officer.

The Contractor shall do nothing to prejudice the Government's right to recover against third parties for any loss, destruction of, or damage to Government property, and upon the request of the Contracting Officer shall, at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including assistance in the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery.

52.219-9 Small Business Subcontracting Plan (APR 2008)

52.219-16 Liquidated Damages-Subcontracting Plan (JAN 1999)

- (a) "Failure to make a good faith effort to comply with the subcontracting plan," as used in this clause, means a willful or intentional failure to perform in accordance with the requirements of the subcontracting plan approved under the clause in this contract entitled "Small Business Subcontracting Plan," or willful or intentional action to frustrate the plan.
- (b) Performance shall be measured by applying the percentage goals to the total actual subcontracting dollars or, if a commercial plan is involved, to the pro rata share of actual subcontracting dollars attributable to Government contracts covered by the commercial plan. If, at contract completion or, in the case of a commercial plan, at the close of the fiscal year for which the plan is applicable, the Contractor has failed to meet its subcontracting goals and the Contracting Officer decides in accordance with paragraph (c) of this clause that the Contractor failed to make a good faith effort to comply with its subcontracting plan, established in accordance with the clause in this contract entitled "Small Business Subcontracting Plan," the Contractor shall pay the Government liquidated damages in an amount stated. The amount of probable damages attributable to the Contractor's failure to comply shall be an amount equal to the actual dollar amount by which the Contractor failed to achieve each subcontract goal.
- (c) Before the Contracting Officer makes a final decision that the Contractor has failed to make such good faith effort, the Contracting Officer shall give the Contractor written notice specifying the failure and permitting the Contractor to demonstrate what good faith efforts have been made and to discuss the matter. Failure to respond to the notice may be taken as an admission that no valid explanation exists. If, after consideration of all the pertinent data, the Contracting Officer finds that the Contractor failed to make a good faith effort to comply with the subcontracting plan, the Contracting Officer shall issue a final decision to that effect and require that the Contractor pay the Government liquidated damages as provided in paragraph (b) of this clause.
- (d) With respect to commercial plans, the Contracting Officer who approved the plan will perform the functions of the Contracting Officer under this clause on behalf of all agencies with contracts covered by the commercial plan.
- (e) The Contractor shall have the right of appeal, under the clause in this contract entitled, Disputes, from any final decision of the Contracting Officer.

(f) Liquidated damages shall be in addition to any other remedies that the Government may have.

52.222-39 Notification of Employee Rights Concerning Payment of Union Dues or Fees (DEC 2004)

(a) *Definition.* As used in this clause—

“United States” means the 50 States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, and Wake Island.

(b) Except as provided in paragraph (e) of this clause, during the term of this contract, the Contractor shall post a notice, in the form of a poster, informing employees of their rights concerning union membership and payment of union dues and fees, in conspicuous places in and about all its plants and offices, including all places where notices to employees are customarily posted. The notice shall include the following information (except that the information pertaining to National Labor Relations Board shall not be included in notices posted in the plants or offices of carriers subject to the Railway Labor Act, as amended (45 U.S.C. 151-188)).

Notice to Employees

Under Federal law, employees cannot be required to join a union or maintain membership in a union in order to retain their jobs. Under certain conditions, the law permits a union and an employer to enter into a union-security agreement requiring employees to pay uniform periodic dues and initiation fees. However, employees who are not union members can object to the use of their payments for certain purposes and can only be required to pay their share of union costs relating to collective bargaining, contract administration, and grievance adjustment.

If you do not want to pay that portion of dues or fees used to support activities not related to collective bargaining, contract administration, or grievance adjustment, you are entitled to an appropriate reduction in your payment. If you believe that you have been required to pay dues or fees used in part to support activities not related to collective bargaining, contract administration, or grievance adjustment, you may be entitled to a refund and to an appropriate reduction in future payments.

- (c) The Contractor shall comply with all provisions of Executive Order 13201 of February 17, 2001, and related implementing regulations at 29 CFR Part 470, and orders of the Secretary of Labor.
- (d) In the event that the Contractor does not comply with any of the requirements set forth in paragraphs (b), (c), or (g), the Secretary may direct that this contract be cancelled, terminated, or suspended in whole or in part, and declare the Contractor ineligible for further Government contracts in accordance with procedures at 29 CFR Part 470, Subpart B—Compliance Evaluations, Complaint Investigations and Enforcement Procedures. Such other sanctions or remedies may be imposed as are provided by 29 CFR Part 470, which implements Executive Order 13201, or as are otherwise provided by law.
- (e) The requirement to post the employee notice in paragraph (b) does not apply to—
 - (1) Contractors and subcontractors that employ fewer than 15 persons;
 - (2) Contractor establishments or construction work sites where no union has been formally recognized by the Contractor or certified as the exclusive bargaining representative of the Contractor’s employees;
 - (3) Contractor establishments or construction work sites located in a jurisdiction named in the definition of the United States in which the law of that jurisdiction forbids enforcement of union-security agreements;
 - (4) Contractor facilities where upon the written request of the Contractor, the Department of Labor Deputy Assistant Secretary for Labor-Management Programs has waived the posting requirements with respect to any of the Contractor’s facilities if the Deputy Assistant Secretary finds that the Contractor has demonstrated that—
 - (i) The facility is in all respects separate and distinct from activities of the Contractor related to the performance of a contract; and
 - (ii) Such a waiver will not interfere with or impede the effectuation of the Executive order; or
 - (5) Work outside the United States that does not involve the recruitment or employment of workers within the United States.
- (f) The Department of Labor publishes the official employee notice in two variations; one for contractors covered by the Railway Labor Act and a second for all other contractors. The Contractor shall—
 - (1) Obtain the required employee notice poster from the Division of Interpretations and Standards, Office of Labor-Management Standards, U.S. Department of Labor, 200 Constitution Avenue, NW, Room N-5605, Washington, DC 20210, or from any field office of the Department’s Office of Labor-Management Standards or Office of Federal Contract Compliance Programs;
 - (2) Download a copy of the poster from the Office of Labor-Management Standards website at <http://www.olms.dol.gov> or
 - (3) Reproduce and use exact duplicate copies of the Department of Labor’s official poster.
- (g) The Contractor shall include the substance of this clause in every subcontract or purchase order that exceeds the simplified acquisition threshold, entered into in connection with this contract, unless exempted by the Department of Labor Deputy Assistant Secretary for Labor-Management Programs on account of special circumstances in the national interest under authority of 29 CFR 470.3 (c). For indefinite quantity subcontracts, the Contractor shall include the substance of this clause if the value of orders in any calendar year of the subcontract is expected to exceed the simplified acquisition threshold. Pursuant to 29 CFR Part 470, Subpart B—Compliance Evaluations, Complaint Investigations and Enforcement Procedures, the Secretary of Labor may direct the Contractor to take such action in the enforcement of these regulations, including the imposition of sanctions for noncompliance with respect to any such subcontract or purchase order. If the Contractor becomes involved in litigation with a subcontractor or vendor, or is threatened with such involvement, as a result of such direction, the Contractor may request the United States, through the Secretary of Labor, to enter into such litigation to protect the interests of the United States.

(a) *Definitions.* As used in this clause—

“Recycling” means the series of activities, including collection, separation, and processing, by which products or other materials are recovered from the solid waste stream for use in the form of raw materials in the manufacture of products other than fuel for producing heat or power by combustion.

“Waste prevention” means any change in the design, manufacturing, purchase, or use of materials or products (including packaging) to reduce their amount or toxicity before they are discarded. Waste prevention also refers to the reuse of products or materials.

“Waste reduction” means preventing or decreasing the amount of waste being generated through waste prevention, recycling, or purchasing recycled and environmentally preferable products.

(b) Consistent with the requirements of Section 701 of Executive Order 13101, the Contractor shall establish a program to promote cost-effective waste reduction in all operations and facilities covered by this contract. 52.248-1 Value Engineering (FEB 2000)

(a) *General.* The Contractor is encouraged to develop, prepare, and submit value engineering change proposals

(VECP's) voluntarily. The Contractor shall share in any net acquisition savings realized from accepted VECP's, in accordance with the incentive sharing rates in paragraph (f) below.

(b) *Definitions.*

"Acquisition savings," as used in this clause, means savings resulting from the application of a VECP to contracts awarded by the same contracting office or its successor for essentially the same unit. Acquisition savings include –

- (1) Instant contract savings, which are the net cost reductions on this, the instant contract, and which are equal to the instant unit cost reduction multiplied by the number of instant contract units affected by the VECP, less the Contractor's allowable development and implementation costs;
- (2) Concurrent contract savings, which are net reductions in the prices of other contracts that are definitized and ongoing at the time the VECP is accepted; and
- (3) Future contract savings, which are the product of the future unit cost reduction, multiplied by the number of future contract units in the sharing base. On an instant contract, future contract savings include savings on increases in quantities after VECP acceptance that are due to contract modifications, exercise of options, additional orders, and funding of subsequent year requirements on a multiyear contract.

"Collateral costs," as used in this clause, means agency cost of operation, maintenance, logistic support, or Government-furnished property.

"Collateral savings," as used in this clause, means those measurable net reductions resulting from a VECP in the agency's overall projected collateral costs, exclusive of acquisition savings, whether or not the acquisition cost changes.

"Contracting office" includes any contracting office that the acquisition is transferred to, such as another branch of the agency or another agency's office that is performing a joint acquisition action.

"Contractor's development and implementation costs," as used in this clause, means those costs the Contractor incurs on a VECP specifically in developing, testing, preparing, and submitting the VECP, as well as those costs the Contractor incurs to make the contractual changes required by Government acceptance of a VECP.

"Future unit cost reduction," as used in this clause, means the instant unit cost reduction adjusted as the Contracting Officer considers necessary for projected learning or changes in quantity during the sharing period. It is calculated at the time the VECP is accepted and applies either –

- (1) Throughout the sharing period, unless the Contracting Officer decides that recalculation is necessary because conditions are significantly different from those previously anticipated; or
- (2) To the calculation of a lump-sum payment, which cannot be revised later.

"Government costs," as used in this clause, means those agency costs that result directly from developing and implementing the VECP, such as any net increases in the cost of testing, operations, maintenance, and logistics support. The term does not include the normal administrative costs of processing the VECP or any increase in this contract's cost or price resulting from negative instant contract savings.

"Instant contract," as used in this clause, means this contract, under which the VECP is submitted. It does not include increases in quantities after acceptance of the VECP that are due to contract modifications, exercise of options, or additional orders. If this is a multiyear contract, the term does not include quantities funded after VECP acceptance. If this contract is a fixed-price contract with prospective price redetermination, the term refers to the period for which firm prices have been established.

"Instant unit cost reduction" means the amount of the decrease in unit cost of performance (without deducting any Contractor's development or implementation costs) resulting from using the VECP on this, the instant contract. If this is a service contract, the instant unit cost reduction is normally equal to the number of hours per line-item task saved by using the VECP on this contract, multiplied by the appropriate contract labor rate.

"Negative instant contract savings" means the increase in the cost or price of this contract when the acceptance of a VECP results in an excess of the Contractor's allowable development and implementation costs over the product of the instant unit cost reduction multiplied by the number of instant contract units affected.

"Net acquisition savings" means total acquisition savings, including instant, concurrent, and future contract savings, less Government costs.

"Sharing base," as used in this clause, means the number of affected end items on contracts of the contracting office accepting the VECP.

"Sharing period," as used in this clause, means the period beginning with acceptance of the first unit incorporating the

VECP and ending at a calendar date or event determined by the contracting officer for each VECP.

“Unit,” as used in this clause, means the item or task to which the Contracting Officer and the Contractor agree the VECP applies.

“Value engineering change proposal (VECP)” means a proposal that –

- (1) Requires a change to this, the instant contract, to implement; and
 - (2) Results in reducing the overall projected cost to the agency without impairing essential functions or characteristics; *provided*, that it does not involve a change –
 - (i) In deliverable end item quantities only;
 - (ii) In research and development (R&D) end items or R&D test quantities that is due solely to results of previous testing under this contract; or
 - (iii) To the contract type only.
- (c) *VECP preparation.* As a minimum, the Contractor shall include in each VECP the information described in subparagraphs (c) (1) through (8) below. If the proposed change is affected by contractually required configuration management or similar procedures, the instructions in those procedures relating to format, identification, and priority assignment shall govern VECP preparation. The VECP shall include the following:
- (1) A description of the difference between the existing contract requirement and the proposed requirement, the comparative advantages and disadvantages of each, a justification when an item’s function or characteristics are being altered, the effect of the change on the end item’s performance, and any pertinent objective test data.
 - (2) A list and analysis of the contract requirements that must be changed if the VECP is accepted, including any suggested specification revisions.
 - (3) Identification of the unit to which the VECP applies.
 - (4) A separate, detailed cost estimate for
 - (i) the affected portions of the existing contract requirement and
 - (ii) the VECP.

The cost reduction associated with the VECP shall take into account the Contractor’s allowable development and implementation costs, including any amount attributable to subcontracts under the Subcontracts paragraph of this clause, below.

- (5) A description and estimate of costs the Government may incur in implementing the VECP, such as test and evaluation and operating and support costs.
 - (6) A prediction of any effects the proposed change would have on collateral costs to the agency.
 - (7) A statement of the time by which a contract modification accepting the VECP must be issued in order to achieve the maximum cost reduction, noting any effect on the contract completion time or delivery schedule.
 - (8) Identification of any previous submissions of the VECP, including the dates submitted the agencies and contract numbers involved, and previous Government actions, if known.
- (d) *Submission.* The Contractor shall submit VECP’s to the Contracting Officer, unless this contract states otherwise. If this contract is administered by other than the contracting office, the Contractor shall submit a copy of the VECP simultaneously to the Contracting Officer and to the Administrative Contracting Officer.
- (e) *Government action.*
- (1) The Contracting Officer will notify the Contractor of the status of the VECP within 45 calendar days after the contracting office receives it. If additional time is required, the Contracting Officer will notify the Contractor within the 45-day period and provide the reason for the delay and the expected date of the decision. The Government will process VECP’s expeditiously; however, it will not be liable for any delay in acting upon a VECP.
 - (2) If the VECP is not accepted, the Contracting Officer will notify the Contractor in writing, explaining the reasons for rejection. The Contractor may withdraw any VECP, in whole or in part, at any time before it is accepted by the Government. The Contracting Officer may require that the Contractor provide written notification before undertaking significant expenditures for VECP effort.
 - (3) Any VECP may be accepted, in whole or in part, by the Contracting Officer’s award of a modification to this contract citing this clause and made either before or within a reasonable time after contract performance is completed. Until such a contract modification applies a VECP to this contract, the Contractor shall perform in

accordance with the existing contract. The decision to accept or reject all or part of any VECP is a unilateral decision made solely at the discretion of the Contracting Officer.

(f) *Sharing rates.* If a VECP is accepted, the Contractor shall share in net acquisition savings according to the percentages shown in the table below. The percentage paid the Contractor depends upon –

- (1) This contract’s type (fixed-price, incentive, or cost-reimbursement);
- (2) The sharing arrangement specified in paragraph (a) above (incentive, program requirement, or a combination as delineated in the Schedule); and
- (3) The source of the savings (the instant contract, or concurrent and future contracts), as follows:

CONTRACTOR'S SHARE OF NET ACQUISITION SAVINGS
(Figures in percent)

Contract Type	Incentive (Voluntary)		Program Requirement (Mandatory)	
	Instant Contract Rate	Concurrent and Future Contract Rate	Instant Contract Rate	Concurrent and Future Contract Rate
Fixed-price (includes fixed-price-award-fee; excludes other fixed-price incentive contracts)	* 50	* 50	* 25	25
Incentive (fixed-price or cost) (other than award fee)	(**)	* 50	(**)	25
Cost-reimbursement (includes cost-plus-award-fee; excludes other cost-type incentive Contracts)	*** 25	*** 25	15	15

* The Contracting Officer may increase the Contractor’s sharing rate to as high as 75 percent for each VECP.

** Same sharing arrangement as the contract’s profit or fee adjustment formula.

*** The Contracting Officer may increase the Contractor’s sharing rate to as high as 50 percent for each VECP.

(g) *Calculating net acquisition savings.*

- (1) Acquisition savings are realized when
 - (i) the cost or price is reduced on the instant contract,
 - (ii) reductions are negotiated in concurrent contracts,
 - (iii) future contracts are awarded, or
 - (iv) agreement is reached on a lump-sum payment for future contract savings (see subparagraph (i) (4) below).

Net acquisition savings are first realized, and the Contractor shall be paid a share, when Government costs and any negative instant contract savings have been fully offset against acquisition savings.
- (2) Except in incentive contracts, Government costs and any price or cost increases resulting from negative instant contract savings shall be offset against acquisition savings each time such savings are realized until they are fully offset. Then, the Contractor’s share is calculated by multiplying net acquisition savings by the appropriate Contractor’s percentage sharing rate (see paragraph (f) above). Additional Contractor shares of net acquisition savings shall be paid to the Contractor at the time realized.
- (3) If this is an incentive contract, recovery of Government costs on the instant contract shall be deferred and offset against concurrent and future contract savings. The Contractor shall share through the contract incentive structure in savings on the instant contract items affected. Any negative instant contract savings shall be added to the target cost or to the target price and ceiling price, and the amount shall be offset against concurrent and

future contract savings.

- (4) If the Government does not receive and accept all items on which it paid the Contractor's share, the Contractor shall reimburse the Government for the proportionate share of these payments.
- (h) *Contract adjustment.* The modification accepting the VECP (or a subsequent modification issued as soon as possible after any negotiations are completed) shall –
 - (1) Reduce the contract price or estimated cost by the amount of instant contract savings, unless this is an incentive contract;
 - (2) When the amount of instant contract savings is negative, increase the contract price, target price and ceiling price, target cost, or estimated cost by that amount;
 - (3) Specify the Contractor's dollar share per unit on future contracts, or provide the lump-sum payment;
 - (4) Specify the amount of any Government costs or negative instant contract savings to be offset in determining net acquisition savings realized from concurrent or future contract savings; and
 - (5) Provide the Contractor's share of any net acquisition savings under the instant contract in accordance with the following:
 - (i) Fixed-price contracts -- add to contract price.
 - (ii) Cost-reimbursement contracts -- add to contract fee.
- (i) *Concurrent and future contract savings.*
 - (1) Payments of the Contractor's share of concurrent and future contract savings shall be made by a modification to the instant contract in accordance with subparagraph (h)(5) above. For incentive contracts, shares shall be added as a separate firm-fixed-price line item on the instant contract. The Contractor shall maintain records adequate to identify the first delivered unit for 3 years after final payment under this contract.
 - (2) The Contracting Officer shall calculate the Contractor's share of concurrent contract savings by –
 - (i) Subtracting from the reduction in price negotiated on the concurrent contract any Government costs or negative instant contract savings not yet offset; and
 - (ii) Multiplying the result by the Contractor's sharing rate.
 - (3) The Contracting Officer shall calculate the Contractor's share of future contract savings by –
 - (i) Multiplying the future unit cost reduction by the number of future contract units scheduled for delivery during the sharing period;
 - (ii) Subtracting any Government costs or negative instant contract savings not yet offset; and
 - (iii) Multiplying the result by the Contractor's sharing rate.
 - (4) When the Government wishes and the Contractor agrees, the Contractor's share of future contract savings may be paid in a single lump sum rather than in a series of payments over time as future contracts are awarded. Under this alternate procedure, the future contract savings may be calculated when the VECP is accepted, on the basis of the Contracting Officer's forecast of the number of units that will be delivered during the sharing period. The Contractor's share shall be included in a modification to this contract (see subparagraph (h) (3) above) and shall not be subject to subsequent adjustment.
 - (5) *Alternate no-cost settlement method.* When, in accordance with subsection 48.104-4 of the Federal Acquisition Regulation, the Government and the Contractor mutually agrees to use the no-cost settlement method, the following applies:
 - (i) The Contractor will keep all the savings on the instant contract and on its concurrent contracts only.
 - (ii) The Government will keep all the savings resulting from concurrent contracts placed on other sources, savings from all future contracts, and all collateral savings.
- (j) *Collateral savings.* If a VECP is accepted, the Contracting Officer will increase the instant contract amount as specified in paragraph (h)(5) of this clause, by a rate from 20 to 100 percent, as determined by the Contracting Officer, of any projected collateral savings determined to be realized in a typical year of use after subtracting any Government costs not previously offset. However, the Contractor's share of collateral savings will not exceed the contract's firm-fixed-price, target price, target cost, or estimated cost, at the time the VECP is accepted, or \$100,000, whichever is greater. The Contracting Officer will be the sole determiner of the amount of collateral savings.

- (k) *Relationship to other incentives.* Only those benefits of an accepted VECP not rewardable under performance, design-to-cost (production unit cost, operating and support costs, reliability and maintainability), or similar incentives shall be rewarded under this clause. However, the targets of such incentives affected by the VECP shall not be adjusted because of VECP acceptance. If this contract specifies targets but provides no incentive to surpass them, the value engineering sharing shall apply only to the amount of achievement better than target.
- (l) *Subcontracts.* The Contractor shall include an appropriate value engineering clause in any subcontract of \$100,000 or more and may include one in subcontracts of lesser value. In calculating any adjustment in this contract's price for instant contract savings (or negative instant contract savings), the Contractor's allowable development and implementation costs shall include any subcontractor's allowable development and implementation costs, and any value engineering incentive payments to a subcontractor, clearly resulting from a VECP accepted by the Government under this contract. The Contractor may choose any arrangement for subcontractor value engineering incentive payments; provided that the payments shall not reduce the Government's share of concurrent or future contract savings or collateral savings.
- (m) *Data.* The Contractor may restrict the Government's right to use any part of a VECP or the supporting data by marking the following legend on the affected parts:

These data, furnished under the Value Engineering clause of contract TBD, shall not be disclosed outside the Government or duplicated, used, or disclosed, in whole or in part, for any purpose other than to evaluate a value engineering change proposal submitted under the clause. This restriction does not limit the Government's right to use information contained in these data if it has been obtained or is otherwise available from the Contractor or from another source without limitations.

If a VECP is accepted, the Contractor hereby grants the Government unlimited rights in the VECP and supporting data, except that, with respect to data qualifying and submitted as limited rights technical data, the Government shall have the rights specified in the contract modification implementing the VECP and shall appropriately mark the data. (The terms "unlimited rights" and "limited rights" are defined in Part 27 of the Federal Acquisition Regulation.)

52.209-5 Certification Regarding Responsibility Matters (DEC 2008)

- (a) (1) The Offeror certifies, to the best of its knowledge and belief, that—
 - (i) The Offeror and/or any of its Principals—
 - (A) Are ___ are not ___ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;
 - (B) Have ___ have not ___, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, state, or local) contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;
 - (C) Are ___ are not ___ presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision;

(D) Have __, have not __, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) *Examples.*

(i) The taxpayer has received a statutory notice of deficiency, under I.R.C. § 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. § 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. § 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has __ has not __, within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) "Principal," for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (*e.g.*, general manager; plant manager; head of a subsidiary, division, or business segment; and similar positions).

This Certification Concerns a Matter Within the Jurisdiction of an Agency of the United States and the Making of a False, Fictitious, or Fraudulent Certification May Render the Maker Subject to Prosecution Under Section 1001, Title 18, United States Code.

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror non-responsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

The proposal shall address, in detail, the resources, technical knowledge of the Government's requirements, and plans for accomplishing the specified requirements. Proposals submitted by the Offeror that merely state or offer to provide what the Government requires in accordance with the solicitation will be considered unacceptable and will not be considered further.

VOLUME II – PAST PERFORMANCE

The Government is seeking to determine whether the Offeror has experience that will enhance its technical and management capability to perform and whether the Offeror consistently delivers quality services in a timely and cost effective manner. However; the Government reserves the right to use relevant past performance information it obtains through other sources e.g. interviews with previous clients or customers of the contractor, other agency databases (e.g., interviews with previous clients and customers of the Contractor and/or DRO, other agency databases, such as the Contractor Performance System (CPS), Better Business Bureau (BBB), Excluded Party List System (EPLS), etc.) Only provide recent related experiences **within the last 5 years.**

The Offeror shall submit:

Contracts listed may include those entered into by the Federal Government, agencies of State and local Governments and commercial customers. Offerors that are newly formed entities without prior contracts should list contracts and subcontracts as required above for all proposed key personnel.

The Offeror shall submit the Past Performance Information Form, Section J-Attachment 8 with the following information for each customer to which the Offeror sends the Past Performance Questionnaire, Section J-Attachment 7. This information will be submitted as part of Volume II (Past Performance):

Note: Past Performance shall be submitted in the Volume II for evaluation by the Past Performance Evaluation Committee. Offerors are reminded that Volume I – Technical and Management Capability Proposal and Volume II-Past Performance shall NOT contain any cost/pricing data.

VOLUME III- COST/PRICE PROPOSAL

A. Price Proposal Submission

The price proposal shall contain sufficient information to permit a detailed evaluation. The Offeror shall submit proposed **fully burdened rates** for all line items listed in Schedule B of the solicitation unless otherwise specified in Section B. The calculation of the fully burdened rates must be based on the Federal Travel Regulation rate for mileage, Collective Bargaining Agreement, and Wage Determinations (section J-Attachments 2 and 3). **All costs incurred for providing these services shall be contained in the proposed prices.** The burden of

proof for credibility of the proposed prices rests with the Offeror. There will be no other separately priced items. The price proposal volume shall be organized as follows:

1. Standard Form 33 Cover Sheet with blocks 12 through 18 completed.
2. Section B of the solicitation with all price data completed. Provide a detailed price breakdown for:
 - (a) Detention & Food Service (in accordance with PWS)
 - (b) Transportation Service (in accordance with PWS)
 - (c) Mileage Rate per size of vehicle (in accordance with PWS)

The price breakdown must include direct costs, indirect costs or overhead, general and administrative, and profit, which may be helpful in the understanding and evaluation of proposed prices.

B. Explanation of Pricing

This section of the Offeror’s proposal is designed to provide a narrative discussion or explanation of all Prices and “Other Than Pricing” issues requested. As long as the information contained in the “Explanation of Pricing” is related to the Price Proposal, the Offeror should feel free to provide as much narrative discussion as it feels is needed to ensure a proper understanding of the Price Proposal. The explanation of pricing is a critical part of the evaluation process and Offerors shall provide, at a minimum, a comprehensive explanation of the following:

1. Direct Labor Hour estimation and projection (man hours, staffing numbers per shift, roving guards, replacement staff, position descriptions, and hourly pay rate for direct productive labor hours only).
2. A brief discussion of company policies and procedures as they relate to overhead, profit, G&A, overtime, 2nd and 3rd shift compensation differentials, per diem, etc.
3. Fringe benefits.
4. Subcontract information.

The company’s burdened rate will form the basis for future negotiations as additional posts, Full Time Equivalents (FTEs) and transportation routes are added during the life of the contract. The proposed company burdened rate during the life of the contract should be clearly explained in the Explanation of Pricing.

C. Direct Labor

Direct Labor is an integral part of the prices proposed for the performance of this contract. As such, the Government requires that the Contractor present staffing matrices that reflect the Full-Time Equivalent (FTEs), hours, and the rates proposed for the personnel for the assigned positions reflected on the Collective Bargaining Agreement and wage determinations (Section J-Attachments 2 and 3) that will be assigned to the performance of the contract.

The Offeror is cautioned that the labor rates proposed will be compared to the Independent Government Price Estimated (IGCE) as part of the price realism assessment. Therefore, it is recommended, that the Offeror use category rates that represent realistic expectations of the rates that will be paid under the resultant contract.

Below is a sample of a wage breakdown table which lists the minimum information required for the burden labor rates.

Job Classification Title	Base Rate	Fringe	Total Wage	Payroll Taxes	Overhead or G&A Rate	Profit Rate	Fully Burden Wage Rate
Payroll Taxes	Percent						
FICA	%						
FUTA	%						
SUTA	%						
Workers Comp	%						

D. Financial Capability

Provide a narrative discussion of available financial resources for staff, personnel, equipment and supplies to support the proposed contract. Include the firm's certified financial statements, certified by an independent public accountant (prefer audited statements, however, will accept reviewed or compiled statements) for the current year and one previous year.

The Offeror must provide:

1. Evidence of availability of working/operating capital that will be used for performance of the resultant contract. Sufficient funds must be available for the salaries, equipment, equipment maintenance, services, supplies, etc., for a minimum of three months of contract performance (since payments for performance under the resulting contract will be monthly in arrears). Advance payments in this contract are not authorized.
2. Letter from your bank or other financial institution stating:
 - a. Number of years business has been conducted with the bank
 - b. Types of open accounts (savings, checking, loans, etc.)
 - c. Any and all commitments, loan guarantees, etc., in effect, the means by which the loans are secured, and if paid as stated in the agreement.
 - d. Point of contact and telephone number of the bank representative.
3. The Offeror shall submit the **most recent copy of their Dun and Bradstreet Comprehensive Report**. The Offeror's available financial resources will be reviewed based on the company financial statement and the Dun and Bradstreet Comprehensive Report (which includes an analysis of the firm's potential financial stress).

The Offeror must make arrangements with the financial institutions or other parties for the release of confirming information to the Government. The Government may also contact individuals listed in the proposal by the Offerors in order to obtain information concerning the Offerors' financial condition on referenced contracts.

All financial documentation that relates to the technical and management capability proposal shall be contained in Volume III.

**SECTION M - EVALUATION FACTORS FOR AWARD
(This section will be removed upon award)**

52.217-5 Evaluation of Options. (JUL 1990)

Except when it is determined in accordance with FAR 17.206(b) not to be in the Government's best interests, the Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. Evaluation of options will not obligate the Government to exercise the option(s).

M.1 – INTRODUCTION

The Request for Proposal seeks to obtain detention, transportation, and food services inclusive of management, supervision, detainee welfare necessary to operate and support a contract detention facility for the El Centro Processing Center. The Government intends to acquire these services by awarding a single, competitive contract to the responsible Offeror who submits the combination of Demonstrated Technical and Management Capability, Past Performance, and Cost/Price Proposal that is determined to represent the best value to the Government.

The Government will use formal source selection procedures to conduct the acquisition. The source selection procedures involve the use of a structured process that involves a Source Selection Organization (SSO) responsible for the evaluation of the proposals and selection of a source for contract award. The Technical Evaluation Committee (TEC) is responsible for conducting a thorough and complete analysis of the technical proposal. The Business Evaluation Committee (BEC) is responsible for conducting a thorough and complete analysis of the price. The Past Performance Evaluation Committee (PPEC) is responsible for gathering past performance data and conducting a thorough and complete analysis of the past performance data gathered.

The TEC, BEC, and PPEC will submit all findings to the Source Selection Authority (SSA) for the final source selection decision. The SSA will review the findings and make the final source selection decision.

M 2 - EVALUATION FACTORS

FACTOR 1 – TECHNICAL AND MANAGEMENT CAPABILITY

FACTOR 2 – PAST PERFORMANCE

FACTOR 3 – COST/PRICE

M 2.1 - Relative Importance of Evaluation Factors

The solicitation provides the following information to assist the Offerors to gain a better understanding of how the Government will evaluate and consider the Offerors' proposals:

Technical and Management Capability is more important than Past Performance. When combined, Technical and Management Capability and Past Performance are more important than Price.

The Government reserves the right to conduct a pre-award survey on the successful Offeror for a responsibility determination.

FACTOR 1 – TECHNICAL AND MANAGEMENT CAPABILITY

All of the following sub-factors are relatively equal as compared to each other.

Factor 1.1 - Approach to Quality Control and Assurance

The Government will evaluate the Offeror's approach to planning and executing quality control and assurance processes throughout the life of the contract that will fully meet the standards set forth in the RFP.

Factor 1.2 - Transition Plan

The Government will evaluate the Transition Plan to determine if the plan illustrates a sound, reasonable implementation approach with realistic timeframes to ensure a timely seamless transition between the contractor and the predecessor contractor to ensure minimal disruption vital to contractor services and Government activities.

Particular consideration will be given to the Offeror's ability to recruit, train, provide the required licenses, permits and insurance, identify the priority of staffing the facility, and meet the Entry on Duty (EOD) required deadlines

for all positions. Evaluation will be conducted on the training plan to ensure the Offeror's training program and course content meet the contract requirements.

Factor 1.3 - Key Personnel

The Government will evaluate the Offeror's organizational chart and the responsibilities of the key personnel to ensure that the Offeror has a clear understanding of the contract staffing requirements. Key Personnel resumes will be evaluated based on education, knowledge, experience, and security clearance as stated in the PWS.

Factor 1.4 - Management Plan

The Government will evaluate the Management Plan to assure the Offeror's: understanding of the DRO Mission Statement and DRO responsibilities; understanding of the relevance of the DRO Mission Statement and DRO responsibilities to successful contract performance; understanding of how management differs from supervision in the context of the DRO Mission Statement and DRO responsibilities; an explanation of how the Offeror specifically plans to help DRO achieve the DRO Mission Statement and DRO responsibilities; performance measures and incentives or disincentives that demonstrate an understanding of the DRO Mission Statement and DRO responsibilities; commitment of the Offeror to the success of achieving the DRO Mission Statement and DRO responsibilities as demonstrated by the extent to which the Offeror will realistically put its profits at risk through the meaningful incentives and disincentives proposed.

Factor 1.5 - Transportation Plan

The Government will evaluate the Offeror's transportation plan to assure that the Offeror has the capability to meet the requirements based on: written comprehensive Transportation Plan including staff, vehicles, and rationale for the number of miles proposed; how the offeror specifically plans to achieve the objective; training of new and incumbent employees; licenses and permits; and insurance and vehicles.

FACTOR 2: PAST PERFORMANCE

The Past Performance Factor evaluation will assess the relevance and breadth of the Offeror's experience and the quality of the Offeror's past performance. The Government will determine whether the Offeror has experience that will enhance its technical and management capability to perform and whether the Offeror consistently delivers quality services in a timely and cost effective manner. In evaluating past performance, ICE will only take into consideration the relevant experience and past performance assessments from the Offeror's customers. However, ICE reserves the right to use relevant past performance information it obtains through other sources (e.g., interviews with previous clients and customers of the Contractor and/or DRO, other agency databases, such as the Contractor Performance System (CPS), Better Business Bureau (BBB), Excluded Party List System (EPLS), etc. Only recent experience **within the last five years** will be considered in this evaluation. The assessment will evaluate the following areas as a whole:

Past Performance will be evaluated in the following areas: recency and relevance of experience; corporate commitment; quality of services; timeliness of performance; and effective utilization of resources.

Note: If some of the Offeror's experience is relevant and the rest is not, only the relevant experience will be evaluated for purposes of past performance. If no experience is relevant or the experience that is relevant cannot be evaluated due to a reference's failure to respond, a rating of neutral will be assigned for past performance as defined below.

FACTOR 3: COST/PRICE

Cost/Price proposals will not be scored and will not be evaluated if the technical proposal is rated as Unsatisfactory. The Government intends to limit the cost/pricing evaluated to only those offers that reflect the technical competence necessary to accomplish the objectives of the proposed contract. Once these offers have been identified, the evaluation of the Cost/Price Proposals will be performed. The Government will conduct its cost or price analysis using one or more of the techniques specified in FAR 15.

1. Comparison of proposed process received in response to the solicitation.
2. Comparison of proposed prices with resources proposed.
3. Obtaining information/reports from outside agencies and resources as required.
4. Cost analysis.

Proposals will be evaluated for price realism, completeness, and reasonableness:

1. Realism: Prices are compatible with the proposed scope of effort and operations reflect reasonable economy and efficiency.
2. Completeness: All information/data required by the RFP has been submitted, tracks to the requirements, and support the offer.
3. Reasonableness: Prices are considered fair under current market conditions, reasonable to the Government.

Financial Condition and Capability – The Government will assess the financial condition of the Offeror and its financial ability to acquire and provide the necessary resources to fulfill the requirements of the contract. The Government is seeking to determine if the Offeror has available financial resources to support the contract. Upon receipt of the documentary evidence from the Offeror, the Government will investigate the authenticity and validity of the information provided by the Offeror. This information will be used to determine responsibility of the Offeror and to assess relative financial risk.

The Offeror's available financial resources will be reviewed based on the company financial statements and Dun and Bradstreet Comprehensive Report which includes an analysis of the firm's potential financial stress. The Offeror must show that it has sufficient funds available, including a minimum of three (3) months actual contract performance price since the resulting contract payments will be made in arrears. This three (3) month reserve shall be at the value of the maximum quantity under the contract (Reference Section B).

M 3 - EVALUATION PROCESS

M.3.1 – Unacceptable Proposals

The Committees will perform a compliance check of the proposals received to determine conformance of the proposals to the instructions in the RFP. They will review all proposals to determine if they satisfy the minimum requirements of the RFP. Proposals found to be inadequate or in gross non-conformance with the RFP instructions (further evaluation is impossible) will be rejected and the Contracting Officer will notify the unsuccessful Offeror that their proposal will no longer be considered for further evaluation or award and will provide a debriefing if requested by the unacceptable Offeror. A proposal may be deemed unacceptable by the Contracting Officer because:

1. The proposal does not represent a reasonable initial effort to address itself to the essential requirements of the RFP, or clearly demonstrates that the Offeror does not understand all of the requirements
2. A substantial design or technical deficiency is inherent in the proposal, and sufficient correction or improvement to consider the proposal acceptable would require virtually an entirely new proposal
3. The proposal contains major technical or business deficiencies or omissions, or unreasonable costs which could not reasonably be expected to be corrected through discussions with the Offeror.

M.3.2 - Basis for Award

Source Evaluation will be conducted and selection will be made in accordance with the guidelines provided in the Federal Acquisition Regulation (FAR), Homeland Security Acquisition Manual (HSAM), Homeland Acquisition Regulation (HSAR) and the DHS Management Directives. The Source Selection personnel appointed by the Contracting Officer will evaluate each Offeror's Technical and Management Capability, Past Performance, and Cost/Price proposals. The evaluation will be based on best value principles, and award will be made to the Offeror whose proposal represents the overall best value to the Government, price and other factors considered. **The Government intends to award the contract without discussions, in accordance with FAR 52.215-1. However, the Contracting Officer reserves the option to conduct discussions if it is deemed necessary.** The Government intends to award a single Indefinite Delivery, Indefinite Quantity (IDIQ) contract with fixed unit pricing.

M 3.3 - Method of Evaluation

The determination of best value will be made by comparing the differences in the value of the Demonstrated Technical and Management Capability Factors and Past Performance and with differences in the Cost/Price proposed. Demonstrated Technical and Management Capability are more important than Past Performance. When combined, Demonstrated Technical and Management Capability and Past Performance are more important than Cost/Price. However, the Government will not make an award at a significantly higher overall cost to the Government to achieve only slightly superior technical capability. Overall cost to the Government may become the ultimate determining factor for award of the contract as proposals become more equal based on the other factors. The degree of equality between the Offerors' proposals will be measured by the quality, significance, and applicability of the superior

features proposed.

Proposals will be evaluated in accordance with the criteria set forth in the RFP to determine the Offeror’s demonstrated ability to provide the required services. Proposals must be specific and compliant with all terms and conditions of the solicitation in order to be acceptable. Any proposal failing to address all of the elements of the solicitation will be considered an indication of the Offeror’s lack of understanding, and response to, the Government’s requirements and may result negatively in overall proposal evaluation.

M 3.4 - Scoring Instructions

Section M provides a description of the factors that will be evaluated for each section of the proposal. Adjectival ratings will be used in evaluating the Demonstrated Technical and Management Capability Factor and Past Performance Factor. The Cost/Pricing proposal will not be scored.

M 3.5 - Adjectival Ratings System

The Demonstrated Technical and Management Capability Factor will be evaluated qualitatively and categorized as Outstanding, Good, Acceptable, Marginal, or Unacceptable. The following table defines these adjectives.

<i>Rating</i>	<i>Definition</i>
Outstanding (O)	The Contractor <i>meets and significantly exceeds</i> the requirements of the RFP. The Contractor has demonstrated that it is <i>highly proficient, knowledgeable, and experienced</i> in meeting the requirements specified.
Good (G)	The Contractor <i>meets or exceeds</i> the requirements of the RFP. The Contractor has demonstrated that it is <i>proficient, knowledgeable, and experienced</i> in meeting the requirements specified.
Acceptable (A)	The Contractor <i>meets and sometimes exceeds</i> the requirements of the RFP. The Contractor has demonstrated <i>sufficient knowledge or experience</i> in meeting the requirements specified.
Marginal (M)	The Contractor has <i>met</i> the minimum requirements of the RFP with some errors/deficiencies but not “many” as defined by the Unacceptable rating.
Unacceptable (U)	The proposal has <i>many deficiencies and/or gross omissions</i> . The Offeror <i>does not meet many</i> of the requirements of the RFP. The Contractor has <i>little or no working knowledge</i> of how to meet the requirements specified. (When applying this adjective to a proposal as a whole, the proposal must be so unacceptable in one or more areas that it would have to be significantly revised in order to attempt to make it other than unacceptable.)

The Past Performance Factor will be evaluated qualitatively and categorized as Neutral, Outstanding, Good, Marginal, or Unacceptable. The following table defines these adjectives.

<i>Rating</i>	<i>Definition</i>
Neutral (N)	No past performance or experience is available for evaluation. The Offeror has asserted that it has no directly related or similar relevant past performance experience. The proposal receives no merit or demerit for this factor.
Outstanding (O)	Based on the Offeror’s record of past performance, no issues, concerns, or risks are associated with receiving timely services and contract performance. Past performance surveys and the Offeror’s experiences indicate that the Offeror has proven its capability to exceed the requirements of the RFP.
Good (G)	The Offeror’s record of past performance indicates there is little or no risk associated with receiving quality products, timely services, and full contract performance. Past performance surveys and the Offeror’s experience indicate the Offeror will meet or exceed the requirements of the RFP.
Acceptable (A)	The Offeror’s record of past performance indicates that there is an acceptable amount of risk associated with receiving quality products, timely services, and contract performance. Past performance surveys and the Offeror’s experience indicate the Offeror has no problems meeting the requirements of the RFP.
Unacceptable (U)	The Offeror’s record of past performance indicates it will be unable to meet the requirements of the RFP.
