PATIENT: (b)(6)

DOB: (b)(6) /2000

PATIENT ID: (b)(6)

DOS: (b)(6) /2016 12:17:40 PM

PHYSICIAN: KIRKILAS, GARY

LOCATION: CASA LAS PALMAS

EXAM(S): CHEST

REASON: TB SCREENING

PORTABLE CHEST:

The single view of the chest shows no infiltrate, effusion or mass. The heart size is normal, and the pulmonary vascular flow pattern is physiologic. The sulci are clear. The bony structures are intact and free of obvious metastatic disease. There are no findings of active tuberculosis. However, a 4 x 8 noncalcified granuloma is seen in the right base.

CONCLUSION:

1. Noncalcified granuloma in the right base.
2. No radiographic evidence of active tuberculosis.

T-SPOT.TB

T-SPOT.TB Negative

The test result is Negative because the spot count in (Panel A minus Nil Control) and (Panel B minus Nil Control) is less than or equal to 4. This includes values less than zero.

Note: Diagnosing or excluding tuberculosis disease, and assessing the probability of LTBI, requires a combination of epidemiological, historical, medical and diagnostic findings that should be taken into account when interpreting T-SPOT.TB test results. Refer to the most recent CDC guidance (<http://www.cdc.gov/tb/publications/guidelines/default.htm>) for detailed recommendations on diagnosing TB infection (including disease) and selecting persons for testing. Guidelines set forth by the Centers of Disease Control and Prevention (CDC) recommend contacts of a person with tuberculosis (TB) disease who have a negative initial interferon-gamma release assay (IGRA) or TST within 8 weeks of exposure be retested 8 - 10 weeks after last exposure.

Nil (Neg) Control Spot Count	0
Panel A Spot Count	0
Panel B Spot Count	0
Positive Control Spot Count	>20

Limitations (from the T-SPOT.TB Package Insert, p.15)

Results from T-SPOT.TB testing must be used in conjunction with each individual's epidemiological history, current medical status and results of other diagnostic evaluations.

The performance of T-SPOT.TB has not been adequately evaluated with specimens from individuals younger than 17 years, in pregnant women, and in patients with hemophilia.

A false positive result was obtained for T-SPOT.TB when tested in subjects with *M. xenopi*, *M. kansasii* and *M. goodii*. While ESAT-6 and CFP10 antigens are absent from BCG strains of *M. bovis* and from most environmental mycobacteria, it is possible that a positive T-SPOT.TB result may be due to infection with *M. kansasii*, *M. szulgai*, *M. goodii* or *M. marinum*. Alternative tests would be required if these infections are suspected.

A negative test result does not exclude the possibility of exposure to, or infection with *M. tuberculosis*. Patients with recent exposure to TB infected individuals exhibiting a negative T-SPOT.TB result should be considered for retesting within 6 weeks or if other relevant clinical symptoms indicate possible infection.

A positive test result does not rule in active TB disease; other tests should be performed to confirm the diagnosis of active TB disease such as sputum smear and culture, PCR, and chest radiography.

T-SPOT.TB has not been evaluated in subjects who have received >1 month of anti-TB therapy.

Refrigerated and frozen samples are not recommended for use with T-SPOT.TB test.

Reinterviewed 9/20, results pending. Need both BCs sent to consulate. Consulate requested correct phone number(s) of (b)(6) (b)(6)'s family in COO. The Consulate has the number (b)(6) (b)(6) and it is not a correct number. 9/28/16 Consulate Note: (b)(6) information in the RENAP system indicates DOB (b)(6) 2002, and Not (b)(6) 2001. We were not able to communicate with the family because we have wrong phone number. Consulate ANSWER: According to physical appearance, interview, and info sharing by the programs of (b)(6) (b)(6) and (b)(6) there are signs they may be adults. The birth certificates submitted by them indicate that they are still minors. In conclusion, possibly they are using someone else's birth certificates.	Dental forensics approved 8/26. Dental exam conducted on 9/7; results received on 9/8/2016; probable age is 15.65 and 5.5% chance of being over age of 18.	CM has concerns due to appearance and the DOB that he came in with is different from the one he has on his BC that mother provided. (b)(6)/2002) Okay to proceed.

When CM attempted to speak with this step brother, the step brother acted confused as to who I was referring to, if to the client or himself. During the interview with (b)(6) (in COO), CM asked about the parents' whereabouts, (b)(6) (in COO) reported their father had passed away about 8 years ago. Client denied it, said his father was still alive. When CM tried to speak to brother in USA, (b)(6) (b)(6) to clarify the situation, (b)(6) stated that he was not sure what was told to his brother (b)(6) and that it would be best to stay in contact with COO for more information as they knew more about his brother's case. Juan also reported their father died 8 years ago. On 9/22, during a phone call with CM, Family of client (in COO) reported that the client's father had died 8 years ago. When this had been asked to minor, minor reported that was not true, that his father is still alive. CM asked for a

Hello what are we doing here? We have forensic finding of 80% on this UC that he is an adult. This exceed the 75% ORR threshold.

Thank you.

Hello,

Yes, we would like to receive this minor back as we have all his documentation.

We do have 2 new minors enroute and receiving them would put us at capacity. Can the two new minors enroute from Texas please be put on hold until Sunday when we have more available beds?

Please advise.

Thank you!

Hi (b)(6);(b)(7)(C) & (b)(6)

I was wondering if either of you could let Casa Cornelia know where this young man ended-up. We would like to perform a follow-up if possible.

Also, again, we would really like to establish some sort of system whereby Casa Cornelia is given a heads-up before age re-determination is made. If there is ever any doubt as to one of our client's age, we would like to conduct a follow-up

interview. This could be a win-win for all of us as if we discover a client is an adult, we would probably encourage that client to come forward with that information (I can't think of a scenario where we wouldn't). This would save everyone a lot of time.

Best,

Matt

There are medical forensics on both of these UCs. This particular consulate's position would have one believe that no one ever uses anyone else's false documents, which we know is not the case.

The reason we do medical forensics is to show whether or not someone is an adult, and the agreed upon threshold is 75%.

Memo of Age Determination

May 6, 2016

TO: ICE – DHS – PHOENIX, AZ
Juvenile.Phoenix@ice.dhs.gov and Juvplacement@ice.dhs.gov

FROM: Heidi Staples
Federal Field Specialist
ORR/Division of Children's Services

SUBJECT: ADULT – (b)(6) AKA (b)(6)
A# (b)(6) Southwest Key Casa Lighthouse, Phoenix, Arizona

This UC entered the facility on (b)(6) 16 as a minor named (b)(6) with a reported DOB of (b)(6) 1999, age 17. His true name is (b)(6), and his true DOB is (b)(6) /1995, which makes him 20 years old. He self-reported to be an adult and his mother in Guatemala sent his true birth certificate. The birth certificate and his photo and confession letter are attached.

Medical: Minor does not have any medical issues. TB is negative.

The prospective sponsor/contact for this individual is the father (b)(6),
Phone Number: (b)(6)

I request that this person be transferred to ICE custody based on evidence that he is not a minor and therefore cannot be housed in SWK Casa Lighthouse shelter. Thank you.

Respectfully,

Heidi Staples, MSW

Hi (b)(6) & (b)(6)

I was wondering if either of you could let Casa Cornelia know where this young man ended-up. We would like to perform a follow-up if possible.

Also, again, we would really like to establish some sort of system whereby Casa Cornelia is given a heads-up before age re-determination is made. If there is ever any doubt as to one of our client's age, we would like to conduct a follow-up interview. This could be a win-win for all of us as if we discover a client is an adult, we would probably encourage that client to come forward with that information (I can't think of a scenario where we wouldn't). This would save everyone a lot of time.

Best,

Matt

Hello,

It seems we will have to cancel some placements for other minors made at the facility yesterday in order for this minor to be placed there. ORR must make sure there are other facilities that can accommodate the other minors, before taking their placement. We will resume with placement in the morning 9 AM Eastern Time. Please stand by until the morning.

Hello,

Yes, we would like to receive this minor back as we have all his documentation.

We do have 2 new minors enroute and receiving them would put us at capacity. Can the two new minors enroute from Texas please be put on hold until Sunday when we have more available beds?

Please advise.

Thank you!

Hello,

Yes, we would like to receive this minor back as we have all his documentation.

We do have 2 new minors enroute and receiving them would put us at capacity. Can the two new minors enroute from Texas please be put on hold until Sunday when we have more available beds?

Please advise.

Thank you!
